

Elimination System (NPDES) permits under section 402 of the Clean Water Act, certain research and development projects, the EPA actions involving renovations or new construction of EPA facilities, and certain grants awarded for projects authorized by Congress through the agency's annual appropriations act. The EPA is collecting information from certain applicants as part of the process of complying with either NEPA or Executive Order 12114 ("Environmental Effects Abroad of Major Federal Actions"). The EPA's NEPA regulations apply to actions of the EPA that are subject to NEPA in order to ensure that environmental information is available to the agency's decision-makers and the public before decisions are made and before actions are taken. When the EPA conducts an environmental assessment pursuant to its Executive Order 12114 procedures, the agency generally follows its NEPA procedures. Compliance with the procedures is the responsibility of the EPA's Responsible Officials, and for applicant proposed actions, applicants may be required to provide environmental information to the EPA as part of the environmental review process. For this ICR, applicant-proposed projects subject to either NEPA or Executive Order 12114 (and that are not addressed in other EPA programs' ICRs) are addressed through the NEPA process.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are certain grant or permit applicants who must submit environmental information documentation to the EPA for their projects to comply with NEPA or Executive Order 12114, including Wastewater Treatment Construction Grants Program facilities funded under section 201 of the Clean Water Act, State and Tribal Assistance Grant recipients, and new source NPDES permittees.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 516 (total).

Frequency of response: On occasion.

Total estimated burden: 27,004 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$2,290,209 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: There is an increase of 19,444 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to an adjustment change in the size of the respondent universe due to the return of

congressional earmarks in the EPA annual appropriations act.

Dated: June 23, 2022.

Robert Tomiak,

Director, Office of Federal Activities.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Taconite Iron Ore Processing (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Taconite Iron Ore Processing (EPA ICR Number 2050.10, OMB Control Number 2060-0538), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through June 30, 2022. Public comments were previously requested, via the **Federal Register**, on April 13, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before July 28, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2021-0119, online using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 2821T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov>, or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Taconite Iron Ore Processing (40 CFR part 63, subpart RRRRR), were proposed on December 18, 2002; promulgated on October 30, 2003; and most-recently amended on both July 28, 2020 and November 19, 2020. These regulations apply to existing facilities and new taconite iron ore processing facilities that emit or have the potential to emit a single hazardous air pollutant (HAP) at a rate of 10 tons or more per year or any combination of HAPs at a rate of 25 tons or more per year. The affected sources are ore crushing and handling operations, ore dryers, indurating furnaces, finished pellet handling emission units, and fugitive dust emissions. New facilities include those that commenced construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart RRRRR. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is

inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: 5900–576.

Respondents/affected entities:

Taconite iron ore processing facilities.

Respondent's obligation to respond:

Mandatory (40 CFR part 63, subpart RRRRR).

Estimated number of respondents: 8 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 1,230 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$584,000 (per year), which includes \$0 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The change in the burden and cost estimates is due to a correction of the number of respondents per year performing Method 5 performance tests to be consistent with the number of respondents estimated to provide notifications of performance tests and report performance test results. This ICR adjusts the number of respondents conducting performance tests in each year from 2.7 per year to 8 per year, which increases the annual burden by approximately 300 hours. There is no change in the capital/startup vs. operation and maintenance (O&M) costs as calculated in section 6(b)(iii) compared with the costs in the previous ICR.

Courtney Kerwin,

Director, Regulatory Support Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Diesel Emissions Reduction Act (DERA) and Clean School Bus (CSB) Rebate Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an

information collection request (ICR), Diesel Emissions Reduction Act (DERA) and Clean School Bus (CSB) Rebate Programs (EPA ICR No. 2461.04, OMB Control No. 2060–0686) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through June 30, 2022. Public comments were previously requested via the **Federal Register** on August 16, 2021 and February 2, 2022, both with 60-day comment periods. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before July 28, 2022.

ADDRESSES: Submit your comments to EPA, referencing Docket ID No. EPA–HQ–OAR–2012–0103, online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 82221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the

EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This is an extension of the current Information Collection Request (ICR) for the Diesel Emissions Reduction Act program (DERA) authorized by Title VII, Subtitle G (Sections 791 to 797) of the Energy Policy Act of 2005 (Pub. L. 109–58), as amended by the Diesel Emissions Reduction Act of 2010 (Pub. L. 111–364) and Division S (Section 101) of the Consolidated Appropriations Act, 2021 (Pub. L. 116–260), codified at 42 U.S.C. 16131 *et seq.* DERA provides the Environmental Protection Agency (EPA) with the authority to award grants, rebates or low-cost revolving loans on a competitive basis to eligible entities to fund the costs of projects that significantly reduce diesel emissions from mobile sources through implementation of a certified engine configuration, verified technology, or emerging technology. Eligible mobile sources include buses (including school buses), medium heavy-duty or heavy heavy-duty diesel trucks, marine engines, locomotives, or nonroad engines or diesel vehicles or equipment used in construction, handling of cargo (including at ports or airports), agriculture, mining, or energy production. In addition, eligible entities may also use funds awarded for programs or projects to reduce long-duration idling using verified technology involving a vehicle or equipment described above. The objective of the assistance under this program is to achieve significant reductions in diesel emissions in terms of tons of pollution produced and reductions in diesel emissions exposure, particularly from fleets operating in areas designated by the Administrator as poor air quality areas. EPA uses approved procedures and forms to collect necessary information to operate its grant and rebate programs. EPA has been providing rebates under DERA since Fiscal Year 2012. EPA is requesting an extension of the current ICR, which is approved through June 30, 2022, for forms needed to collect necessary information to operate a rebate program as authorized by Congress under the DERA program.

As part of this extension, EPA is revising the ICR to address the needs of the Clean School Bus (CSB) Program. This program is authorized by Title XI, Section 71101 of the Infrastructure Investment and Jobs Act (Pub. L. 117–58). The new program, like DERA,
