Scope of the Order³

The products covered by the scope of the *Order* are kegs from China. A full description of the scope of the *Order* is contained in the Issues and Decision Memorandum.

Analysis of Comments Received

All issues raised by the interested parties in their case and rebuttal briefs are addressed in the Issues and Decision Memorandum and are listed in the appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Changes Since the Preliminary Results

Based on our analysis of comments from interested parties and the evidence on the record, we revised the calculation of the net countervailable subsidy rates for Ningbo Master International Trade Co., Ltd. (Ningbo Master). For a discussion of the issues, see the Issues and Decision Memorandum.

Methodology

Commerce conducted this administrative review in accordance with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). For each of the subsidy programs found to be countervailable, we find that there is a subsidy, *i.e.*, a government-provided financial contribution that gives rise to a benefit to the recipient, and that the subsidy is specific.⁴ For a complete description of the methodology underlying all of Commerce's conclusions, including our reliance, in part, on facts otherwise available, including adverse facts available, pursuant to sections 776(a) and (b) of the Act, see the Issues and Decision Memorandum.

Companies Not Selected for Individual Review

The statute and Commerce's regulations do not address the establishment of a rate to be applied to

³ See *Refillable Stainless Steel Kegs from the People's Republic of China: Countervailing Duty Order*, 84 FR 68400 (December 16, 2019) (*Order*).

⁴ See sections 771(5)(B) and (D) of the Act regarding financial contribution; section 771(5)(E) of the Act regarding benefit; and section 771(5A) of the Act regarding specificity.

companies not selected for individual examination when Commerce limits its examination in an administrative review pursuant to section 777A(e)(2) of the Act. However, Commerce normally determines the rates for non-selected companies in reviews in a manner that is consistent with section 705(c)(5) of the Act, which provides the basis for calculating the all-others rate in an investigation. Section 705(c)(5)(A)(i) of the Act instructs Commerce, as a general rule, to calculate the all-others rate equal to the weighted average of the countervailable subsidy rates established for exporters and producers individually investigated, excluding any zero or *de minimis* countervailable subsidy rates, and any rates determined entirely on the basis of facts available.

There are two companies for which a review was requested and not rescinded, and which were not selected as mandatory respondents or found to be cross-owned with a mandatory respondent. For these non-selected companies, because the rate calculated for the only participating mandatory respondent in this review, Ningbo Master, was above *de minimis* and not based entirely on facts available, we are applying Ningbo Master's subsidy rate to the two non-selected companies.

This is the same methodology Commerce applied in the *Preliminary Results* for determining a rate for companies not selected for individual examination. However, due to changes in the calculation for Ningbo Master, we revised the non-selected rate accordingly. Consequently, for both of the non-selected companies for which a review was requested and not rescinded, we are applying an *ad valorem* subsidy rate of 5.22 percent.

Final Results of Administrative Review

We determine find the net countervailable subsidy rates for the mandatory and non-selected respondents under review for the period January 1, 2020, through December 31, 2020, to be as follows:

Producer or exporter	Subsidy rate (percent <i>ad valorem</i>)
Ningbo Master International Trade Co., Ltd. ⁵	5.22
Review-Specific Average Rate Applicable to the Following Companies: Guangzhou Jingye Machinery Co., Ltd	5.22

⁵ Commerce finds the following companies to be cross-owned with Ningbo Master: Ningbo Major Draft Beer Equipment Co., Ltd. and Zhejiang Major Technology Co., Ltd.

Producer or exporter	Subsidy rate (percent <i>ad valorem</i>)
Guangzhou Ulix Industrial & Trading Co., Ltd	5.22
