

issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the internet in lieu of paper. See 18 CFR 385.2001(a) (1) (iii) and the instructions on the Commission's Web site (www.ferc.gov) under the "e-Filing" link. Persons unable to file electronically should submit an original and five copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

Proposed Project

Performance Measurement and Program Evaluation

(Autism and Developmental Disabilities Monitoring (ADDM) Network)—New—National Center for Birth Defects and Developmental Disabilities (NCBDDD), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

In January 2015, CDC launched a new phase of funding for its autism spectrum disorder (ASD) surveillance program through a new cooperative agreement: “Enhancing Public Health Surveillance of Autism Spectrum Disorder and Other Developmental Disabilities through the Autism and Developmental Disabilities Monitoring (ADDM) Network” under the Funding Opportunity Announcement (FOA) DD15–1501.

Through this cooperative agreement, funding is provided to enhance tracking at eight existing sites and to launch two new sites. Awards were made to state/ local health departments and/or their designated representatives, including Colorado Department of Public Health and Environment, Johns Hopkins University, Rutgers University, University of Arizona, University of Arkansas for Medical Sciences, University of North Carolina at Chapel Hill, University of Minnesota, University of Wisconsin-Madison, Vanderbilt University, and Washington University in St. Louis. Four sites received funding to carry out Component A, which focuses on surveillance of ASD and either cerebral palsy or intellectual disability among 8-year-olds. Six sites received funding to

carry out both Component A as well as Component B, which focuses on surveillance of ASD among 4-year-olds. In addition to the sites funded under the cooperative agreement, CDC also administers a site in Atlanta, Georgia, commonly known as the Metropolitan Atlanta Developmental Disabilities Surveillance Program (MADDSP).

CDC seeks to request OMB approval to collect performance monitoring and program evaluation information from all sites participating in the Autism and Developmental Disabilities Monitoring Network (including the site administered by CDC). Over the course of the four-year funding cycle, each site will provide feedback via site-specific interviews, a Checklist, Worksheets, and Performance Measures at six month and two-year intervals. The interviews will occur on pre-established individual site calls that CDC conducts monthly with each grantee. The Worksheets and Performance Measures will be submitted to CDC by completing a Microsoft Excel-based data collection tool and emailing the information to a designated CDC contact. By conducting brief telephone interviews and developing a user-friendly data collection tool in Microsoft Excel, CDC anticipates that the reporting and tracking burden for awardees will be

reduced due to: (1) Use of pre-established meeting time to conduct interviews, (2) awardees’ familiarity with the software, which reduces training burden; and (3) the compatibility of the templates with other record keeping processes that are already in place for many awardees. CDC staff and contractors will be responsible for converting each awardee’s submissions into a secure Microsoft Excel spreadsheet for reporting and analysis. CDC anticipates that respondent burden will be slightly higher at the initial six-month submission and will also be slightly higher for sites completing Component A&B compared to just Component A.

The information to be collected will help CDC and awardees assure compliance with cooperative agreement requirements, support program evaluation efforts, and obtain information needed to respond to inquiries about program activities and program impact from Congress and other stakeholders.

OMB approval is requested for three years. Participation is required as a condition of cooperative agreement funding. There are no costs to respondents other than their time. The total estimated burden hours are 122.
