

Disclosure

We will disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

Notification to Importers Regarding the Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during the POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping and/or countervailing duties occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: April 9, 2013.

Paul Piquado,

Assistant Secretary for Import Administration.

Certain Magnesia Carbon Bricks From the People's Republic of China: Final Results of and Final Partial Rescission of Countervailing Duty Administrative Review; 2010

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On October 9, 2012, the Department of Commerce (the Department) published the preliminary results of the 2010 administrative review of the countervailing duty (CVD) order on certain magnesia carbon bricks from the People's Republic of China (PRC) covering the two mandatory respondents for the period of review (POR) of August 2, 2010, through December 31, 2010.¹ We invited parties to comment on the *Preliminary Results*.² Based on the analysis of the comments received, the Department has not made any changes to the subsidy rates determined for the two mandatory respondents. The final subsidy rates are listed in the "Final Results of Review" section below.

DATES: *Effective Date:* April 15, 2013.

FOR FURTHER INFORMATION CONTACT: Toni Page or Elfi Blum, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-1398 or (202) 482-0197, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 9, 2012, the Department published the *Preliminary Results*, which covered the two mandatory respondents—Fengchi Imp. and Exp. Co., Ltd. of Haicheng City and Fengchi Refractories Co., of Haicheng City (collectively, Fengchi) and Yingkou Bayuquan Refractories Co., Ltd. (BRC)—as well as the remaining producers/exporters for whom we initiated reviews.

On November 13, 2012, the Department received case briefs from

¹ See *Certain Magnesia Carbon Bricks From the People's Republic of China: 2010 Countervailing Duty Administrative Review*, 77 FR 61397 (October 9, 2012) (*Preliminary Results*).

² See *Preliminary Results*, 77 FR 61399.

Resco Products, Inc. (the petitioner in the original investigation) (Petitioner), the Government of the People's Republic of China (the GOC), and Fengchi. The Department received rebuttal briefs on November 19, 2012, from Petitioner, Fengchi, and ANH Refractories Company (ANH), a domestic producer of subject merchandise.

Analysis of Comments Received

All issues raised by parties in their case briefs are addressed in the Final Decision Memorandum.³ A list of these issues is attached to this notice in Appendix I. The Final Decision Memorandum is a public document and is on file electronically via Import Administration's Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). Access to IA ACCESS is available to registered users at <http://iaaccess.trade.gov> and in the Central Records Unit, room 7046 of the main Department of Commerce building. In addition, a complete version of the Final Decision Memorandum can be accessed directly on the Internet at <http://www.trade.gov/ia/>. The signed Final Decision Memorandum and electronic versions of the Final Decision Memorandum are identical in content.

Scope of the Order

The scope of the order includes certain magnesia carbon bricks.⁴ Certain magnesia carbon bricks that are the subject of the order are currently classifiable under subheadings 6810.11.0000, 6810.91.0000, 6810.99.0080, 6902.10.1000, 6902.10.5000, 6815.91.0000, 6815.99.2000 and 6815.99.4000 of the Harmonized Tariff Schedule of the United States (HTSUS). While HTSUS subheadings are provided for convenience and customs purposes, the written description is dispositive.

Changes Since the Preliminary Results

Based on the comments received from the interested parties, we have made no change to the *Preliminary Results*. For a discussion of the issues, see the Final Decision Memorandum.

³ See Memorandum from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Import Administration, "Issues and Decision Memorandum for Certain Magnesia Carbon Bricks from the People's Republic of China: Final Results of the 2010 Administrative Review," dated concurrently with this notice and herein incorporated by reference (Final Decision Memorandum).

⁴ See Final Decision Memorandum for a complete description of the scope of the order.

Final Rescission, in Part, of the Administrative Review

In the *Preliminary Results*, we stated that a final decision regarding whether to rescind the review with respect to certain companies would be made in the final results of this review.⁵ We continue to find no evidence on the record to indicate that these companies exported subject merchandise during the POR. Accordingly, pursuant to 19 CFR 351.213(d)(3), the Department is rescinding the review with respect to

ANH Xinyi, the RHI companies, and NCR for these final results.

Rate for Non-Selected Companies Under Review

With respect to the companies for which we initiated reviews and for which the review has not been rescinded,⁶ we are assigning these companies the all others rate from the investigation because the rates determined for the mandatory respondents in this review are based entirely upon AFA. We consider the use of the all-others rate from the

investigation, which was based upon a calculated rate for one of the mandatory respondents in the investigation, to be a reasonable method for calculating the rate applicable to the remaining companies under review because it represents the only rate in the history of the CVD order on magnesia carbon bricks from the PRC that is not zero, *de minimis*, or based entirely upon facts available.

Final Results of Review

The subsidy rates for the POR are as follows:

Company	Subsidy rate (percent)
Fengchi Imp. and Exp. Co., Ltd. of Haicheng City and Fengchi Refractories Co., of Haicheng City	262.80
Yingkou Bayuquan Refractories Co. Ltd.	262.80
Rate Applicable to the Remaining Companies Under Review ⁷	24.24

⁷ See Appendix II.

Assessment Rates

The Department intends to issue appropriate assessment instructions directly to U.S. Customs and Border Protection (CBP) 15 days after publication of these final results of review.

Cash Deposit Instructions

The Department also intends to instruct CBP to collect cash deposits of estimated CVDs in the amounts shown above. For all non-reviewed firms, we will instruct CBP to continue to collect cash deposits of estimated CVDs at the all others rate established in the investigation. Accordingly, the cash deposit rates that will be applied to companies covered by the order, but not examined in this review, are those established in the most recently completed segment of the proceeding for each company. These cash deposit rates shall apply to all non-reviewed companies until a review of a company assigned these rates is requested and completed. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Administrative Protective Order

This notice also serves as a reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business

proprietary information in this segment of proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction. These final results are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: April 9, 2013.

Paul Piquado,
Assistant Secretary for Import Administration.

Appendix I

- Comment 1: Application of Adverse Facts Available (AFA) to Fengchi for its Failure to Report Period of Review (POR) Information for Magnesia Alumina Carbon Bricks (MACBs)
 Comment 2: Selection of the Appropriate AFA Rate to Assign to Fengchi and Corroboration of That Rate
 Comment 3: Corrections to the Department's Draft Customs Instructions
 Comment 4: Petitioner's Untimely Withdrawal Request

DEPARTMENT OF COMMERCE

International Trade Administration

Trade Mission to Philippines and Malaysia

AGENCY: International Trade Administration, Department of Commerce

ACTION: Notice

Mission Description

The United States Department of Commerce, International Trade Administration, U.S. & Foreign Commercial Service (US&FCS), is organizing an executive led education industry trade mission to Manila, Philippines and Kuala Lumpur, Malaysia from October 23—October 30, 2013. This mission is open to representatives from regionally accredited educational institutions offering undergraduate, graduate, and associate degree. Undergraduate and graduate programs and community colleges seeking to participate should be accredited by one of the six regional institutional accreditors in the United States. This mission will seek to connect educational institutions in the United States to potential students, university/institution partners, and education consultants in the Philippines and Malaysia. The mission will include one-on-one appointments with potential partners, embassy briefings, student fairs and networking events in Manila and Kuala Lumpur, the largest cities in two dynamic countries, each of which

hold high potential for U.S. educational institutions interested in students from this region.

Commercial Setting

Philippines

The U.S. still attracts a commanding share of Filipinos wishing to study abroad. U.S. institutions remain a top choice owing in large part to the firmly established historical, socio-cultural and political ties between the two countries. Due to increased competition from schools in other countries such as Australia, Singapore, the United Kingdom and Canada, U.S. schools are encouraged to establish and sustain outreach activities and to leverage the support offered by key education sector contacts. During the 2011/2012 academic year, 3,194 students from the Philippines were studying in the United States. Of these students, 52.7% were undergraduate students and 32.6% were graduate students.

The current educational system in the Philippines is largely based on the American model. There are about 1,600 higher educational institutions (HEIs) in the Philippines, of which 80% are private. There are several international schools in the Philippines. Many of these schools are concentrated in the Manila metropolitan area and offer International Baccalaureate (IB) programs to help prepare students who wish to study overseas. Filipino families place a premium on quality education, and as long as they can afford it, parents often prefer to send their children to private schools. Many overseas schools are increasing their recruiting efforts in the Philippines, particularly with respect to certain niche segments of Filipino society, for example the socio-economic political elite, legacy students/alumni network, and upper middle class families. Meanwhile, there has been a wave of international students, notably Koreans, who spend time in the Philippines specifically to learn English. Many of them eventually move on to pursue degrees in English-speaking countries like the United States, Canada and Australia.

Malaysia

Malaysian parents have historically placed a strong emphasis on education. As such, the demand for higher education in Malaysia has traditionally been and continues to be strong. Within the higher education environment, students in Malaysia generally fall into one of two categories: those funded by government scholarships and those funded privately. Government scholarships for higher education are
