

Calculations for the Benefits, Travel and Operating, Overhead, and Allowance for Bad Debt Rates

These rates are components of the basetime, overtime, holiday, and laboratory services rates formulas.

Benefits Rate: The quotient of dividing the previous fiscal year's direct benefits costs by the previous fiscal year's total hours (regular, overtime, and holiday), plus that quotient multiplied by the calendar year's percentage cost of living increase. Some examples of direct benefits are health insurance, retirement, life insurance, and Thrift Savings Plan basic and matching contributions.

The calculation for the 2015 benefits rate per hour per program employee is:

[FY 2014 Direct Benefits/(Total Regular hours + Total Overtime hours + Total Holiday hours) (\$140,056,558/16,226,581)] = \$8.63 + (\$8.63 * 1.8% (calendar year 2015 Cost of Living Increase)) = \$8.78.

Travel and Operating Rate: The quotient of dividing the previous fiscal year's total direct travel and operating costs by the previous fiscal year's total hours (regular, overtime, and holiday), plus that quotient multiplied by the calendar year's percentage of inflation.

The calculation for the 2015 travel and operating rate per hour per program employee is:

[FY 2014 Total Direct Travel and Operating Costs/(Total Regular hours + Total Overtime hours + Total Holiday hours) (\$12,514,065/16,226,581)] = \$.77 + (\$.77 * 1.8% (2015 Inflation)) = \$.79.

Overhead Rate: The quotient of dividing the previous fiscal year's indirect costs plus the previous fiscal year's information technology (IT) costs in the Public Health Data

Communication Infrastructure System Fund plus the previous fiscal year's Office of Management Program cost in the Reimbursable and Voluntary Funds plus the provision for the operating balance less any Greenbook costs (*i.e.*, costs of USDA support services prorated to the service component for which fees are charged) that are not related to food inspection by the previous fiscal year's total hours (regular, overtime, and holiday) worked across all funds, plus the quotient multiplied by the calendar year's percentage of inflation.

The calculation for the 2015 overhead rate per hour per program employee is:

[FY 2014 Total Overhead/(Total Regular hours + Total Overtime hours + Total Holiday hours) (\$264,700,950/16,226,581)] = \$16.31 + (\$16.31 * 1.8% (2015 Inflation)) = \$16.61.

Allowance for Bad Debt Rate = Previous fiscal year's total allowance for

bad debt (for example, debt owed that is not paid in full by plants and establishments that declare bankruptcy) divided by previous fiscal year's total hours (regular, overtime, and holiday) worked.

The 2015 calculation for bad debt rate per hour per program employee is:

[FY 2014 Total Bad Debt/(Total Regular hours + Total Overtime hours + Total Holiday hours) = (\$365,480/16,226,581)] = \$.02.
