

Industries, Inc. alleging yarn of cashmere and yarn of camel hair, classified in heading 5108.10.60 of the HTSUS, cannot be supplied by the domestic industry in commercial quantities in a timely manner. It requested that the President proclaim that apparel articles of U.S. formed fabrics of such yarns be eligible for preferential treatment under the CBTPA.

CITA solicited public comments regarding this request (66 FR 13913, published on March 8, 2001) particularly with respect to whether yarn of cashmere and yarn of camel hair, classified in HTSUS heading 5108.10.60, can be supplied by the domestic industry in commercial quantities in a timely manner.

On the basis of currently available information, CITA has determined that yarn of cashmere and yarn of camel hair is spun in the United States and is available from U.S. producers in commercial quantities in a timely manner. Two companies in their submissions claim that they currently spin the yarns in question. Two other companies in their submissions claim to have the spinning capacity to produce these yarns. One company in its submission claims it supplies camel and cashmere hair fibers to companies that spin it into yarn and claims that three additional companies are capable of supplying cashmere and camel hair yarn to the petitioner.

Based on currently available information, CITA has determined that Amicale's petition should be denied. Amicale has not established that these yarns cannot be supplied by the domestic industry in commercial quantities in a timely manner. Currently available information indicates that the domestic industry is able to supply these yarns in commercial quantities in a timely manner.

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.
