Scientific Advisory Committee (CASAC).

Presently, the EPA is reviewing the air quality criteria and primary NAAQS for SO_X. The EPA's overall plan for this review is presented in the *Integrated* Review Plan for the Primary NAAQS for Sulfur Dioxide (IRP).2 As described in the IRP, the EPA is preparing an Integrated Science Assessment for Sulfur Oxides—Health Criteria (ISA), the second draft 3 of which was reviewed by the CASAC, along with the Risk and Exposure Assessment Planning Document for the Review of the Primary National Ambient Air Quality Standards for Sulfur Oxides (REA Planning Document),⁴ at a public meeting in March 2017 (82 FR 11449). The draft REA announced today describes the approaches taken to assess SO₂ exposures and associated health risks, as well as presents the initial key results, observations, and related uncertainties associated with the quantitative analyses performed. The PA, when final, serves to "bridge the gap" between the scientific and technical information in the final ISA and REA, and the judgments required of the Administrator in determining whether to retain or revise the existing primary NAAQS for SOx. The draft PA builds upon information presented in the second draft ISA and the draft REA. The draft REA and PA documents will be available on or about August 25, 2017, on the EPA's Technology Transfer Network Web site at https:// www.epa.gov/naaqs/sulfur-dioxide-so2primary-air-quality-standards.

The EPA is soliciting advice and recommendations from the CASAC by means of a review of these draft documents at an upcoming public meeting of the CASAC. Information about this public meeting, including the dates and location, will be published as a separate notice in the Federal **Register.** Following the CASAC meeting, the EPA will consider comments received from the CASAC and the public in preparing revisions to these documents.

The draft documents briefly described above do not represent and should not be construed to represent any final EPA policy, viewpoint, or determination. The EPA will consider any public comments submitted in response to this notice when revising the documents.

Dated: August 14, 2017.

Stephen Page,

Director, Office of Air Quality Planning and Standards.
