Executive Order 12866

This notice of proposed priority and definitions has been reviewed in accordance with Executive Order 12866. Under the terms of the order, we have assessed the potential costs and benefits of this regulatory action.

The potential costs associated with the notice of proposed priority and definitions are those resulting from statutory requirements and those we have determined as necessary for administering this program effectively and efficiently.

In assessing the potential costs and benefits—both quantitative and qualitative—of this notice of proposed priority, definitions, and application requirements we have determined that the benefits of the proposed priority and definitions justify the costs.

We have also determined that this regulatory action does not unduly interfere with State, local, and tribal governments in the exercise of their governmental functions.

Summary of potential costs and benefits

The Assistant Secretary has determined that the cost to the Federal Government associated with this program will not exceed \$2,250,000 in FY 2007. No other costs will result from the announcement of this proposed priority and definitions.

The benefit of this proposed priority and definitions would be the establishment of model demonstration projects that will improve the postsecondary education and employment outcomes of students with disabilities.

Intergovernmental Review

This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

This document provides early notification of our specific plans and actions for this program.

Applicable Program Regulations: 34 CFR part 373.
