IV. What Action is EPA Taking?

EPA is extending the comment period for alkyl-lead an additional 60 days. On November 16, 1998, EPA released its Agency-wide Multimedia Strategy for Priority Persistent, Bioaccumulative, and Toxic (PBT) Pollutants (PBT Strategy). The goal of the PBT Strategy is to identify and reduce risks to human health and the environment from current and future exposure to priority PBT pollutants. This document serves as the Draft National Action Plan for Alkyl-Lead, one of the 12 Level 1 priority PBT pollutants identified for the initial focus of action in the PBT Strategy.

EPA is requesting public comment on a strategy to address the remaining risks to human health and the environment from exposure to alkyl-lead: (1) Contribute to international efforts to reduce the use of alkyl-lead world-wide; (2) pursue voluntary initiatives to reduce the use of alkyl-lead in aircraft gasoline, race cars, and non-road vehicles such as farm machinery, marine vessels, construction equipment, and recreational vehicles; and (3) collect information as possible, given resource constraints, related to production, use, emissions, and continued exposure scenarios.
