

on-line response. Non-respondents will receive follow-up contact by mail.

Response to all phases of the Census of Agriculture Content Test are voluntary.

Authority: Although the Census of Agriculture is required by law ("Census of Agriculture Act of 1997," Public Law 105-113, 7 U.S.C. 2204(g) as amended), this Content Test is voluntary. These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA)," **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33362.

Estimate of Burden: Reporting burden for Phase One, (mailout survey) of this collection of information is estimated to average 50 minutes per completed response and two (2) minutes per refusal. This was determined by our experience from past Censuses of Agriculture and by our survey methodologists, based on the length and difficulty of similar surveys. Burden is based on an estimated minimum response rate of 58%. This anticipated response rate is based on similar types of voluntary mail surveys and through the use of a mail questionnaire and (limited) telephone follow-up to non-respondents. After removing ineligible cases (those operations out of business or similar), we anticipate a 50% response rate.

Reporting burden for Phase Two, (cognitive interviews) of this collection of information is estimated to average 120 minutes per completed response and five (5) minutes per refusal. This was determined by our survey methodologists who compared the questionnaire length and difficulty with previous cognitive pretests NASS has conducted.

Reporting burden for Phase Three, (internet test) of this collection of information is estimated to average 40 minutes per completed response and two (2) minutes per refusal. This was determined by our experience from past Censuses of Agriculture and by our

survey methodologists, who compared the questionnaire length and difficulty with similar surveys. Since Phase Three is Internet only, the average time to complete the questionnaire is less than for Phase One (paper questionnaire and phone follow-up responses only) since the Internet version is faster due to automated routing. Burden is based on an estimated minimum response rate of 53%, which is similar to response rates observed for voluntary Internet based surveys of a similar nature.

Respondents: Potential farm and ranch operators.

Estimated Number of Respondents: 65,400 farmers and/or ranchers.

Estimated Total Annual Burden on Respondents: 42,000 hours (This is based on the expected response rates explained above.)

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, February 18, 2015.

R. Renee Picanso,

Associate Administrator.

BILLING CODE 3410-20-P

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

Notice of Intent To Grant Exclusive License

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice of intent.

SUMMARY: Notice is hereby given that the U.S. Department of Agriculture, Agricultural Research Service, intends to grant to RENEWABLE NUTRIENTS, LLC. of PINEHURST, NORTH

CAROLINA, an exclusive license to U.S. Patent No. 8,906,332, "GASEOUS AMMONIA REMOVAL SYSTEM," issued on DECEMBER 9, 2014 and U.S. Patent Application Serial No. 14/528,614, "GASEOUS AMMONIA REMOVAL SYSTEM," filed on OCTOBER 30, 2014.

DATES: Comments must be received on or before April 20, 2015.

ADDRESSES: Send comments to: USDA, ARS, Office of Technology Transfer, 5601 Sunnyside Avenue, Rm. 4-1174, Beltsville, Maryland 20705-5131.

FOR FURTHER INFORMATION CONTACT: Mojdeh Bahar of the Office of Technology Transfer at the Beltsville address given above; telephone: 301-504-5989.

SUPPLEMENTARY INFORMATION: The Federal Government's patent rights in these inventions are assigned to the United States of America, as represented by the Secretary of Agriculture. It is in the public interest to so license these inventions as RENEWABLE NUTRIENTS, LLC. of PINEHURST, NORTH CAROLINA has submitted a complete and sufficient application for a license. The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within thirty (30) days from the date of this published Notice, the Agricultural Research Service receives written evidence and argument which establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Mojdeh Bahar,

Assistant Administrator.
