BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XC246]

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of an application for exempted fishing permit; request for comments.

SUMMARY: NMFS announces the receipt of an application for an exempted fishing permit (EFP) from Dr. David Portnoy, Texas A&M University, Corpus Christi. If granted, the EFP would allow a limited harvest of speckled hind in South Atlantic Federal waters by select commercial fishermen. The samples collected would be used to assess the speckled hind population structure, genetic diversity, and life history in the South Atlantic.

DATES: Written comments must be received on or before September 21, 2022.

ADDRESSES: You may submit comments on the application, identified by “NOAA–NMFS–2022–0084” by any of the following methods:

- *Electronic Submission:* Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to <https://www.regulations.gov> and enter “NOAA–NMFS–2022–0084” in the Search box. Click on the “Comment” icon, complete the required fields, and enter or attach your comments.
- *Mail:* Submit written comments to Frank Helies, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

Electronic copies of the EFP application may be obtained from the Southeast Regional Office website at <https://www.fisheries.noaa.gov/southeast/about-us/south-atlantic-speckled-hind-exempted-fishing-permit-application/>.

FOR FURTHER INFORMATION CONTACT:

Frank Helies, 727–824–5305; email: frank.helies@noaa.gov.

SUPPLEMENTARY INFORMATION: The EFP is requested under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act; 16 U.S.C 1801 *et seq.*), and regulations at 50 CFR 600.745(b) concerning exempted fishing.

Currently, Federal regulations at 50 CFR 622.181 (b)(3) prohibit the harvest and possession of speckled hind in or from South Atlantic Federal waters. Speckled hind are sedentary, long-lived, deep-water groupers. There are no known data regarding the stock structure of speckled hind in South Atlantic waters and little is known about their biology; consequently, there are not enough data to accurately determine whether the species is undergoing overfishing or are overfished.

Dr. Portnoy was awarded a Marine Fisheries Initiative grant to assess the population structure, genetic diversity, and life history of speckled hind in the U.S. South Atlantic. Beginning in 2018, Dr. Portnoy acquired some of his project’s needed speckled hind samples from fishery independent surveys conducted by NMFS and the South Carolina Department of Natural Resources. However, as a result of low encounter rates with the species since 2018, and reduced fishery independent survey effort in 2020, additional samples were needed to obtain a sufficient number of project samples.

Dr. Portnoy previously requested, and was granted, an EFP from NMFS on March 22, 2021, to retain up to 40

speckled hind per calendar year (up to 80 total for the EFP) (86 FR 11503, February 25, 2021). That EFP expired on August 31, 2022. To date, only 11 of the 80 projected samples have been obtained in the South Atlantic, and only 2 from the previously issued EFP. However, the applicant has continued to add fishermen to the previous EFP to increase opportunities for speckled hind sample collection.

If granted, the EFP would be valid through August 31, 2024, and would allow a limited harvest of up to 40 speckled hind per calendar year (up to 80 total for the duration of the EFP) in the Federal waters of the South Atlantic. The EFP would exempt select commercial fishermen from Federal regulations prohibiting the harvest and possession of speckled hind in Federal waters of the South Atlantic at 50 CFR 622.181(b)(3). Because speckled hind would be harvested incidentally during routine commercial fishing trips, NMFS does not expect that any additional environmental impacts would occur through the issuance of the EFP.

Dr. Portnoy proposes to collect speckled hind from select commercial fishermen who occasionally encounter speckled hind in South Atlantic Federal waters during routine commercial fishing operations. Currently, six commercial fishermen have volunteered to participate in the EFP while using hook-and-line gear fishing in South Atlantic Federal waters in depths ranging from 70 ft (21 m) to 600 ft (183 m), and one fisherman has volunteered while using black sea bass pots in depths ranging from 60 ft (18 m) to 110 ft (34 m). Speckled hind would only be collected using either gear type during the course of regular fishing operations. The selected commercial fisherman would comply with all other Federal fishing regulations such as fishing seasons, area closures, and commercial trip limits. If the fishermen encounter a speckled hind, a fin clip would be taken from the harvested speckled hind and shipped to the Marine Genomics Laboratory at Texas A&M University, Corpus Christi, Texas. The sampled fin clip would be used for genetic studies. All sampled speckled hind carcasses would be shipped to the NMFS Southeast Fisheries Science Center for otolith extraction to determine age and growth parameters. The results of the EFP are expected to contribute to improved understanding of speckled hind population structure, genetic diversity, and life history in the U.S. South Atlantic. The EFP results could help support future scientific and management decisions for the speckled hind stock in the South Atlantic.

NMFS finds the application warrants further consideration based on a preliminary review. Possible conditions the agency may impose on the EFP, if granted, include but are not limited to, a prohibition on fishing within marine protected areas, marine sanctuaries, or special management zones without additional authorization. A final decision on issuance of the EFP will depend on NMFS' review of public comments received on the application, consultations with the appropriate fishery management agencies of the affected states, the South Atlantic Fishery Management Council, and the U.S. Coast Guard, and a determination that the activities to be taken under the EFP are consistent with all other applicable laws.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 31, 2022.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of web conference.

SUMMARY: The North Pacific Fishery Management Council (Council) Pacific Northwest Crab Industry Advisory Committee (PNCIAC) will meet September 21, 2022.

DATES: The meeting will be held on Wednesday, September 21, 2022, from 9 a.m. to 11 a.m., Alaska Time.

ADDRESSES: The meeting will be a web conference. Join online through the link at <https://meetings.npfmc.org/Meeting/Details/2953>.

Council address: North Pacific Fishery Management Council, 1007 W 3rd Ave., Anchorage, AK 99501–2252; telephone: (907) 271–2809. Instructions for attending the meeting via video conference are given under **SUPPLEMENTARY INFORMATION**, below.

FOR FURTHER INFORMATION CONTACT: Sarah Rheinsmith, Council staff; phone: (907) 271–2809; email: sarah.rheinsmith@noaa.gov. For technical support, please contact our

admin Council staff, email: npfmc.admin@noaa.gov.

SUPPLEMENTARY INFORMATION:

Agenda

Wednesday, September 21, 2022

The Committee will discuss: (a) Opilio snow crab rebuilding; (b) red king crab measures; (c) ten-year program review general discussion; and (d) other business. The agenda is subject to change, and the latest version will be posted <https://meetings.npfmc.org/Meeting/Details/2953> prior to the meeting, along with meeting materials.

Connection Information

You can attend the meeting online using a computer, tablet, or smart phone, or by phone only. Connection information will be posted online at: <https://meetings.npfmc.org/Meeting/Details/2953>.

Public Comment

Public comment letters will be accepted and should be submitted electronically to <https://meetings.npfmc.org/Meeting/Details/2953>.

[RTID 0648–XC337]

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Herring Committee via webinar to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This webinar will be held on Friday, September 23, 2022, at 1 p.m.

ADDRESSES: Webinar registration URL information: <https://>

attendee.gotowebinar.com/register/6104685794707070480.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT:

Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Herring Committee will meet to review recommendations from the Herring Plan Development Team and Herring Advisory Panel. They will review draft Atlantic herring specifications and river herring and shad catch caps for fishing years 2023–25 and recommend preferred alternatives. The Committee will consider recommending to the Council a change in priorities to discontinue work on Framework Adjustment 7 to protect adult spawning herring on Georges Bank. They will also discuss possible herring priorities for 2023 and make recommendations to the Council, as appropriate. Other business may be discussed, as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465–0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*
