

utilizing emergency review procedures, to the Office of Management and Budget (OMB) for review and clearance in accordance with section 1320.13(a)(1)(ii) and (a)(2)(iii) of the Paperwork Reduction Act of 1995. The INS has determined that it cannot reasonably comply with the normal clearance procedures under this part because normal clearance procedures are reasonably likely to prevent or disrupt the collection of information. INS is requesting emergency review from OMB of this information collection to ensure compliance with the United States/Canada "Shared Border Accord," signed in 1999 and the Ridge/Manley Agreement, the thirty-point northern border agreement signed in December 2001.

The application will be used by the Immigration and Naturalization Service and the United States Customs officials to determine eligibility for admission into the NEXUS program. NEXUS is an automated dedicated commuter lane (DCL) program for low-risk travelers who frequently cross the land border between the United States and Canada. This high profile program arose from the U.S./Canada Shared Border Accord and was incorporated into the Ridge/Manley Agreement. The Administration has directed that the NEXUS lanes at two ports-of-entry between the state of Washington and British Columbia, Canada must open in June 2002, which requires that the enrollment process begin by Late May 2002 in order to permit sufficient time for background checks and pre-screening interviews.

For the aforementioned reasons, the INS is requesting emergency OMB review and approval of this information collection request by May 15, 2002. If granted, the emergency approval is only valid for 180 days. ALL comments and/or questions pertaining to this pending request for emergency approval MUST be directed to OMB, Office of Information and Regulatory Affairs, Attention: Department of Justice Desk Officer, 725—17th Street, N.W., Suite 10102, Washington, DC 20503. Comments regarding the emergency submission of this information collection may also be submitted via facsimile to 202-395-6974.

During the first 60 days of this same period, a regular review of this information collection is also being undertaken. During the regular review period, the INS requests written comments and suggestions from the public and affected agencies concerning this information collection. Comments are encouraged and will be accepted until July 15, 2002. During the 60-day regular review, ALL comments and

suggestions, or questions regarding additional information, to include obtaining a copy of the information collection instrument with instructions, should be directed to Mr. Richard A. Sloan, 202-514-3291, Director, Regulations and Forms Services Division, Immigration and Naturalization Service, U.S. Department of Justice, Room 4034, 425 I Street, N.W., Washington, DC 20536. Written comments and suggestions from the public and affected agencies concerning the proposed collection of information should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

(1) *Type of Information Collection:* New Collection.

(2) *Title of the Form/Collection:* Application for NEXUS Dedicated Commuter Lane Program.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form I-823N. Inspections Division, Immigration and Naturalization Service.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. The information collected will be used by the INS and U.S. Customs officials to determine eligibility for admission into the NEXUS program under U.S. law. Canadian immigration and customs officials will use the information on the application to determine the individual's eligibility under Canadian law.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* 100,000 responses at 1.166 minutes per response.

(6) *An estimate of the total public burden (in hours) associated with the collection:* 116,600 annual burden hours.

If additional information is required contact: Mr. Robert B. Briggs, Clearance Officer, United States Department of Justice, Information Management and Security Staff, Justice Management Division, Patrick Henry Building, 601 D Street, N.W., Washington, DC 20530.

## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

### Records Schedules; Availability and Request for Comments

**AGENCY:** National Archives and Records Administration (NARA).

**ACTION:** Notice of availability of proposed records schedules; request for comments.

**SUMMARY:** The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

**DATES:** Requests for copies must be received in writing on or before July 1, 2002. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

**ADDRESSES:** To request a copy of any records schedule identified in this notice, write to the Life Cycle Management Division (NWML), National Archives and Records Administration (NARA), 8601 Adelphi Road, College Park, MD 20740-6001. Requests also may be transmitted by FAX to 301-837-3698 or by e-mail to [records.mgt@nara.gov](mailto:records.mgt@nara.gov). Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

**FOR FURTHER INFORMATION CONTACT:**

Marie Allen, Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: (301) 713-7110. E-mail: [records.mgt@nara.gov](mailto:records.mgt@nara.gov).

**SUPPLEMENTARY INFORMATION:** Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using

the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

**Schedules Pending**

1. *Department of the Air Force, Agency-wide (N1-AFU-02-2, 2 items, 2 temporary items).* Records relating to medical treatment of patients in ambulatory care facilities, including electronic copies of documents created using electronic mail and word processing.

2. *Department of the Air Force, Agency-wide (N1-AFU-02-8, 3 items, 3 temporary items).* Records pertaining to use of government purchase cards. Included are records relating to authorization and training of cardholders and to transactions under

investigation or in dispute. Also included are electronic copies of documents created using electronic mail and word processing.

3. *Department of the Air Force, Agency-wide (N1-AFU-02-13, 117 items, 117 temporary items).* Electronic versions of temporary records relating to civil engineering. Included are electronic copies of documents created using electronic mail and word processing as well as electronic records that supplement or replace paper records already approved for disposal. Records relate to such matters as environmental planning, land use, civil engineering resources, real property management, housing, utility services, sanitation and custodial services, airfield pavement marking, snow removal, roof management, pest management, refrigeration, fire protection, disaster preparedness, and engineer readiness.
