SUPPLEMENTARY INFORMATION:

Rulemaking on State, District, and Local Party Committee Payment of Certain Salaries and Wages

On May 4, 2005, the Commission published a Notice of Proposed Rulemaking ("NPRM") proposing revisions to rules that cover what mixture of Federal and non-Federal funds can be used by State, District and local party committees to pay salaries and wages for persons who spend 25 percent or less of their compensated time in a month on Federal election activity or on activity in connection with a Federal election. The comment

period for this NPRM ended on June 3, 2005. The Commission received five comments in response to this NPRM. Six commenters who submitted three of the comments requested to testify at a public hearing if one is held.

After considering these requests and the other comments received to date in response to this NPRM, the Commission believes a public hearing would be helpful in considering the issues raised in the rulemaking. The hearing will be held on August 4, 2005.

Rulemaking on Definition of Federal Election Activity

On May 4, 2005, the Commission published an NPRM proposing to revise the definitions of "Federal election activity," "get-out-the-vote activity," and "voter identification." The comment period for this NPRM ended on June 3, 2005. The Commission received eight comments in response to this NPRM. Seven commenters who submitted four of the comments requested to testify at a public hearing if one is held.

After considering these requests and the other comments received to date in response to this NPRM, the Commission believes a public hearing would be helpful in considering the issues raised in the rulemaking. The hearing will be held on August 4, 2005.

Dated: July 19, 2005.

Chairman, Federal Election Commission.

Airworthiness Directives; Lycoming Engines (Formerly Textron Lycoming) AEIO–360, IO–360, O–360, LIO–360, LO–360, AEIO–540, IO–540, O–540, and TIO–540 Series Reciprocating Engines

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to adopt a new airworthiness directive (AD) for certain Lycoming Engines (formerly Textron Lycoming) AEIO–360, IO–360, O–360, LIO–360, LO–360, AEIO–540, IO–540, O–540, and TIO–540 series reciprocating engines rated at 300 horsepower (HP) or lower. This proposed AD would require replacing certain crankshafts. This proposed AD results from reports of 12 crankshaft failures in Lycoming 360 and 540 series engines rated at 300 HP or lower. We are proposing this AD to prevent failure of the crankshaft, which could result in total engine power loss, in-flight engine failure, and possible loss of the aircraft.

DATES: We must receive any comments on this proposed AD by August 22, 2005.
