

relationship, for example, through the movement of funds outside the traditional banking relationship, which may permit Intercom to access USD through indirect correspondent relationships via other foreign financial institutions.

Given Intercom's longstanding facilitation of illicit opioid trafficking by Mexico-based DTOs, and because transmittals of funds involving Intercom do not necessarily have to go through a correspondent account, FinCEN assesses that it is appropriate to more broadly prohibit any transmittals of funds. Because such a prohibition would cut off any transmittal of funds, and not just those conducted through a correspondent or payable-through account, the prohibition on any transmittal of funds involving Intercom would more effectively prevent Intercom from accessing the U.S. financial system. FinCEN therefore assesses that such a prohibition is the most appropriate special measure to protect the U.S. financial system.

D. Whether the Special Measure Prohibiting Certain Transmittals of Funds Should Be Imposed by Order or Regulation

Pursuant to section 2313a, the Secretary may impose specified special measures, including a prohibition on certain transmittals of funds, "by order, regulation or otherwise as permitted by law." In determining the appropriate approach in this instance, FinCEN considered imposing special measures by order or regulation, taking into account the nature of the underlying threat, and determined that proceeding by an order is the most appropriate course of action given the imminent threats posed by the illicit actors whose transactions and access to funds Intercom facilitates, as well as the ongoing transactions associated with suspected activity related to illicit opioid trafficking that continue to be processed through Intercom. Further, FinCEN has assessed that this order will not be unduly burdensome or impose new or unique compliance costs on financial institutions.

A copy of this order will be published in the **Federal Register**. To the extent that Intercom or parties have information relevant to this order, they may submit it to FinCEN at <http://www.fincen.gov/contact>.

[EPA-HQ-OPPT-2025-0224; FRL-12001-01-OCSPP]

Technical Amendment to the List of OMB Approvals Under the Paperwork Reduction Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), this technical amendment updates the table that lists the control numbers issued by the Office of Management and Budget (OMB) under the PRA for information collection activities contained in certain EPA regulations that are promulgated in title 40 of the Code of Federal Regulations (CFR). This technical amendment adds or amends the OMB Control Numbers for existing approved collection activities and removes the OMB Control Numbers that have expired and/or have been discontinued.

DATES: This final rule is effective June 30, 2025.

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA-HQ-OPPT-2025-0224, is available online at <https://www.regulations.gov>. Additional information about dockets generally, along with instructions for visiting the docket in-person, is available at <https://www.epa.gov/dockets>.

SUPPLEMENTARY INFORMATION:

I. Executive Summary

A. Does this action apply to me?

This action, which consolidates publicly available information about OMB approval of certain information collections without affecting any related activities or requirements, is directed to

the public in general. Although this action may be of particular interest to those who would follow the EPA listing of OMB Control Numbers in 40 CFR part 9, the Agency has not attempted to describe all the specific entities that may be interested.

B. What action is the Agency taking?

This document updates the OMB Control Numbers listed in 40 CFR part 9 for various actions published in the **Federal Register** that were issued under the Toxic Substances Control Act (TSCA) (15 U.S.C. 2601 *et seq.*), the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136 *et seq.*), the Federal Food, Drug, and Cosmetic Act (FFDCA) (21 U.S.C. 408), and the Emergency Planning and Community Right-to-Know Act (EPCRA) (42 U.S.C. 11001 *et seq.*). With this technical amendment, EPA is updating the table in 40 CFR 9.1 to reflect changes to the OMB Control Numbers assigned to the information collection activities contained in the EPA regulations in title 40 of the CFR. The activities or their corresponding OMB Control Numbers may have changed due to the publication of a final rule without a corresponding amendment to 40 CFR part 9, or due to other implementation activities that resulted in the subsequent issuance of a new OMB Control Number under the PRA (*e.g.*, the consolidation of activities, or transfer of activities to another ICR). This final rule simply updates the table to reflect the currently valid OMB Control Numbers.

C. What is the Agency's authority for taking this action?

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information that requires OMB approval under the PRA (44 U.S.C. 3501 *et seq.*) unless it displays a currently valid OMB Control Number. To satisfy the display requirements of the PRA and OMB's implementing regulations at 5 CFR part 1320, the Agency displays the OMB Control Numbers for certain EPA regulations in 40 CFR part 9, in related documents that publish in the **Federal Register**, or by other appropriate means, such as on a related collection instrument or form, reporting system or as part of the instructions and guidance given to respondents, as applicable.

D. Why is this technical amendment issued as a final rule?

Section 553(b)(B) of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(B), provides that, when an agency for good cause finds that public notice and comment procedures are

impracticable, unnecessary, or contrary to the public interest, the agency may issue a rule without providing notice and an opportunity for public comment.

The information collection activities referenced in this document were previously subject to public notice and comment as part of the rulemaking process and submission of the related requests for OMB review and approval of the information collection activities contained in those rulemakings. EPA is not making any substantive changes to the information collection activities listed in 40 CFR 9.1. The Agency is only amending the list of information collections to align it with OMB approved collection activities that underwent public notice and comment process under the APA for the information collection activities associated with rulemakings, as well as consolidations of ongoing collection activities announced through the public notice and comment process per the PRA, because this action only updates the CFR to reflect changes and additions that have already occurred and for which EPA previously provided an opportunity for notice and comment. As such, EPA is not exercising any discretion in this action, but is instead making a ministerial update to the CFR. EPA thus has determined that there is good cause for making this rule final without prior proposal and opportunity comment because such notice and opportunity for comment is unnecessary. In addition, as they are ministerial updates, these revisions do not alter any regulatory requirements. For the reasons discussed in this unit, the Agency also finds that good cause exists under APA section 553(d) to make this rule effective immediately upon publication in the **Federal Register**. EPA is not exercising discretion in this action, but is instead making an administrative change to the CFR.

II. Summary of Changes

EPA is updating the table at 40 CFR 9.1 to correctly reflect OMB's approval of the information collection activities contained in the final rules listed in 40 CFR parts 150 through 190, part 372, and parts 700 through 799, and the ICRs identified in this unit. You may access the record of OMB's approval of the rule-related ICRs and any OMB Terms of Clearance online at <https://www.reginfo.gov/public/do/PRAsearch> by searching for the record using the identified ICR Reference Number.
