

collected from IUs during implementation of the pretreatment program include the mass, frequency, and content of IU discharges and IU schedules for installing pretreatment equipment. Data also include actual or anticipated IU discharges of wastes that violate pretreatment standards, have the potential to cause problems at the POTW, or are considered hazardous under the Resource Conservation and Recovery Act (RCRA). OWM uses the data collected under the pretreatment program to monitor and enforce compliance with the pretreatment regulations, as well as to authorize program administration at the State or Local (POTW) level. States and POTWs applying for approval of their pretreatment programs submit data concerning their legal, procedural, and administrative bases for establishing such programs. This information may include surveys of IUs, local limits for pollutant concentrations, and schedules for completion of major project requirements. IUs and POTWs submit written reports to the approved State or EPA. These data may then be entered into the NPDES databases by the approved State or by EPA.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 74.0 hours per respondent per year, or 18.35 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Affected entities: Various industrial categories, publicly owned treatment works (POTWs), Local and State governments.

Estimated total number of potential respondents: 24,411 (36 States, 1,548 POTWs and 22,827 industrial users).

Frequency of response: On occasion, semi-annually, annually.

Estimated total average number of responses for each respondent: 4.

Estimated total annual burden hours: 1,806,517 hours.

Estimated total annual costs: \$77,647,536. This includes an estimated burden cost of \$75,328,623 and an estimated cost of \$2,318,913 for capital investment or maintenance and operational costs.

Change in Burden: There is an increase of 9,430 (0.5%) hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. Most of the increase in burden is attributable to the transfer of the burden associated with Pretreatment Compliance Inspection (PCI) from the NPDES Program ICR (OMB Control No. 2040-0004, EPA ICR No. 0229.20). There are also additional burden increases in other areas. For example, the number of state respondents has increased from 35 to 36, and the number of approved programs has increased to 1,548 from 1,512.

However, the increases in burden are partially offset by a decrease in burden attributable to the decrease in the number of SIUs. EPA revised the estimated number of SIUs and pretreatment programs after extensive consultation with the EPA regions and a thorough examination of PCS data. The revised number of SIUs drives the decrease in respondent burden because SIUs constitute the bulk of respondents. This ICR shows a shift in burden from POTWs to States as a consequence of EPA's updated estimates of SIUs regulated by POTWs and States. However, this is not the result of programmatic changes but simply a reflection of more accurate information about the implementation of the pretreatment program.

Dated: December 16, 2011.

John Moses,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2007-1121; FRL-9509-4]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Fuel Quality Regulations for Diesel Fuel Sold in 2001 & Later Years; for Tax-Exempt (Dyed) Highway Diesel Fuel; & Non-Road Locomotive & Marine Diesel Fuel (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this notice announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR, which is abstracted below, describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before *January 23, 2012*.

ADDRESSES: Submit comments referencing Docket ID No. EPA-HQ-OAR-2007-1121, to (1) EPA online using <http://www.regulations.gov> (our preferred method), by email to a-and-r-Docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Air Docket, Mail Code 6102T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB by mail to: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Geanetta Heard, Environmental Protection Specialist, Mail Code: 6406J, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: (202) 343-9017 fax number: (202) 343-2801; email address: heard.geanetta@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On August 18, 2011 (76 FR 51362), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OAR-2007-1121, which is available for online viewing at www.regulations.gov, or in person viewing at the Air and Radiation Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The EPA/DC Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Air Docket is (202) 566-1742.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and

to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at www.regulations.gov as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information for which public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: Fuel Quality Regulations for Diesel Fuel Sold in 2001 & Later Years; for Tax-Exempt (Dyed) Highway Diesel Fuel; & Non-Road Locomotive & Marine Diesel Fuel (Renewal).

ICR numbers: EPA ICR No. 1718.09, OMB Control No. 2060-0308.

ICR Status: This ICR is currently scheduled to expire on December 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR covers recordkeeping and reporting requirements for motor vehicle diesel fuel and non-road, locomotive and marine diesel fuel. It also includes recordkeeping and reporting associated with the placement of codes on dyed diesel fuel (the dye is required under IRS regulations). The main purpose for recordkeeping and reporting is to ensure compliance with the regulations at 40 CFR Part 80, Subpart I—"Motor Vehicle, Non-Road, Locomotive, and Marine Diesel Fuel." Most reporting is mandatory. Parties may assert a claim of business confidentiality and submissions covered by such a claim will be treated in accordance with procedures at 40 CFR part 2 and established Agency procedures.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is

estimated to average .07 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Private businesses selling diesel fuel.

Estimated Number of Respondents: 6,806.

Frequency of Response: Annual, quarterly and/or on occasion..

Estimated Total Annual Hour Burden: 18,950.

Estimated Total Annual Cost: \$2,084,500.

Changes in the Estimates: There is a decrease of hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. For this renewal, we estimate a total annual burden of 18,950 hours. This represents a decrease of 266,311 hours. For the expiring approval, we had estimated 285,261 hours. Most motor vehicle diesel reporting has now ended, which was expected to reduce the responses, hours, and costs. Likewise, laboratory qualifications have virtually all been submitted already. However, please note that we have changed how we accounted for the burden for this renewal. We have modeled our estimates to match the in-use forms in order to assist interested parties in providing comments. Therefore, some of the change is associated with how we did the estimates in 2008 (expiring approval) and now.

Dated: December 16, 2011.
