12 CFR Part 8

[Docket No. OCC–2008–0001]

RIN 1557–AD06

Assessment of Fees

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Interim final rule with request for comment.

SUMMARY: The Office of the Comptroller of the Currency (OCC) is amending its assessment regulation to add two new asset-size categories to the table in 12 CFR 8.2(a) used to calculate each national bank’s semiannual assessment. The addition of these categories is

warranted to take account of significant structural changes in the national banking system since 1992, when the table was last revised, and will enable the OCC to realign our assessments to better reflect industry structure and OCC’s corresponding expenses of operations. The OCC is issuing this rule as an interim rule with a request for comment so that such a realignment can occur promptly.

DATES: *Effective Date:* This rule is effective on February 19, 2008.

Comment Date: Comments must be received by March 20, 2008.

ADDRESSES: Because paper mail in the Washington, DC area and at the OCC is subject to delay, commenters are encouraged to submit comments by e-mail, if possible. SUPPLEMENTARY INFORMATION:

Background

The National Bank Act authorizes the OCC to fund the expenses of its operations through assessments on national banks.¹ Under this authority, the OCC collects semiannual assessments from national banks in accordance with part 8 of our regulations and with the OCC’s Notice of the Comptroller of the Currency Fees (Notice of Fees).²

Part 8 currently establishes ten categories, or brackets, each of which

¹ 12 U.S.C. 482.

² Under part 8, the OCC also collects assessments from Federal branches and Federal agencies. The changes provided for in this interim rule will also apply to assessments of Federal branches and Federal agencies.

comprises a range of size values for a national bank's total assets. Each national bank's assessment is the sum of a base amount, which is the same for every national bank in that asset-size bracket, plus a marginal amount, which is computed by applying a marginal assessment rate to the amount of total assets in excess of the lower boundary of the asset-size bracket.³ The marginal assessment rate declines as asset size increases, reflecting economies of scale in bank examination and supervision, which factor into the OCC's overall cost of operations. Both the base amounts and the marginal rates applicable to each asset-size bracket are published at least once a year in the OCC's Notice of Fees.⁴

The current asset-size brackets, which were adopted in 1992⁵ no longer reflect the structure and distribution of assets in the national banking system as a whole. For example, since 1992, there has been a significant increase not only in the amount of assets held by the largest banks, but also in the assets held by national banks in other asset-size brackets, resulting in a general upward shift in the distribution of the population of national banks on the asset-size bracket table in 12 CFR 8.2(a). The growth in the average assets held by national banks reflect the consolidation in the banking industry that has occurred since 1992.

Given these developments, the existing asset-size brackets do not reflect the structure of the national banking system. Updating the asset-size brackets therefore enables the OCC to adjust the assessment framework to better reflect industry structure and the OCC's corresponding expenses of operations.

Description of the Interim Rule

For these reasons, the interim rule expands the number of asset-size assessment brackets in the table at 12 CFR 8.2(a) by revising the current top bracket, presently \$40 billion and above, to cover banks with assets between \$40 billion and \$250 billion. In addition, the interim rule creates a new top bracket that will apply to banks with assets in excess of \$250 billion.

The OCC also is making a conforming change to delete the word "ten" from the description of the asset-size brackets

in § 8.2(a)(1) of the assessment rules since it no longer accurately describes the number of brackets.

Effective Date; Solicitation of Comments

This interim rule will become effective immediately upon publication in the **Federal Register**. Pursuant to the Administrative Procedure Act, at 5 U.S.C. 553(b)(B), notice and an opportunity for public comment are not required prior to the issuance of a final rule if an agency, for good cause, finds that "notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest."⁶ Similarly, there is good cause to publish a rule with an immediate effective date if the rule "grants or recognizes an exemption or relieves a restriction."⁵ 5 U.S.C. 553(d)(1) 553(d)(3).

As we have described, the asset brackets in the assessments table in 12 CFR 8.2(a), which were last revised in 1992, do not reflect the structure of the national banking industry, and therefore the framework for assessing national banks for the expenses of OCC's operations is no longer current. Completion of notice and comment rulemaking procedures prior to issuing this interim rule would require delaying implementation of the new asset brackets beyond the next scheduled assessment date, which is March 31, 2008. Such a delay is inconsistent with the public interest since it would result in national banks' continued payment of assessments under a framework that the OCC has determined is no longer representative of current industry structure and the OCC's corresponding expenses of operation. Issuance of this interim rule furthers the public interest and reduces regulatory burden because it will allow the OCC, as appropriate, to issue an amended Notice of Fees that better reflects the structure of the national banking system and allocates the OCC's expenses of operation on that basis. For the same reasons, the OCC finds good cause to publish this rule with an immediate effective date. *See* 5 U.S.C. 553(d)(1), 553(d)(3).

Although notice and comment are not required prior to the effective date of this rule, the OCC invites comments on all aspects of this interim rule and intends to revise the interim rule if necessary or appropriate in light of the comments received.

Solicitation of Comments on Use of Plain Language

The OCC also requests comment on whether the interim rule is written clearly and is easy to understand. On

June 1, 1998, the President issued a memorandum directing each agency in the Executive branch to write its rules in plain language. This directive applies to all new proposed and interim rulemaking documents issued on or after January 1, 1999. In addition, Public Law 106-102 requires each Federal agency to use plain language in all proposed and interim rules published after January 1, 2000. The OCC invites comments on how to make this rule clearer. For example, you may wish to discuss:

- (1) Whether we have organized the material to suit your needs;
- (2) Whether the requirements of the rule are clear; or
- (3) Whether there is something else we could do to make the rule easier to understand.

Regulatory Flexibility Act Analysis

The Regulatory Flexibility Act (Pub. L. 96-354, Sept. 19, 1980) (RFA) applies only to rules for which an agency publishes a general notice of proposed rulemaking pursuant to 5 U.S.C. 553(b).⁷ Because the OCC has determined for good cause that the Administrative Procedure Act does not require public notice and comment on this interim rule, we are not publishing a general notice of proposed rulemaking. Thus, the RFA does not apply to this interim rule.

Executive Order 12866

The OCC has determined that this interim rule is not a significant regulatory action under Executive Order 12866.

Unfunded Mandates Reform Act of 1995 Determinations

Section 202 of the Unfunded Mandates Reform Act of 1995⁸ (Unfunded Mandates Act) requires that an agency prepare a budgetary impact statement before promulgating any rule likely to result in a Federal mandate that may result in the expenditure by state, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any one year. If a budgetary impact statement is required, section 205 of the Unfunded Mandates Act also requires the agency to identify and consider a reasonable number of regulatory alternatives before promulgating the rule. The OCC has determined that this interim rule will not result in expenditures by state, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any one year.

³ See 12 CFR 8.2(a) (listing the asset-size brackets).

⁴ See, e.g., OCC Bulletin 2007-46, "Notice of the Comptroller of the Currency Fees for Year 2008" (December 1, 2007). The OCC's regulations provide for the annual publication of the Notice of Fees and also authorize the publication of interim, or amended, notices of fees "from time to time throughout the year as necessary." 12 CFR 8.8.

⁵ 57 FR 22413 (May 28, 1992).

⁶ 5 U.S.C. 553(b)(B).

⁷ 5 U.S.C. 601(2).

⁸ 2 U.S.C. 1532.

Accordingly, the OCC has not prepared a budgetary impact statement or specifically addressed the regulatory alternatives considered.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506; 5 CFR Part 1320 Appendix A.1), we have reviewed the interim rule to assess any information collections. There are no collections of information as defined by the Paperwork Reduction Act in the interim rule.

14 CFR Part 25

[Docket No. 384; Notice No. 25-370-SC]

Special Conditions: Boeing Model 787 Series Airplanes; Seats With Non-Traditional, Large, Non-Metallic Panels

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final special conditions.

SUMMARY: These special conditions are for Boeing Model 787 series airplanes. These airplanes will have a novel or unusual design feature(s) associated with seats that include non-traditional, large, non-metallic panels that would affect survivability during a post-crash

fire event. The applicable airworthiness regulations do not contain adequate or appropriate safety standards for this design feature. These special conditions contain the additional safety standards that the Administrator considers necessary to establish a level of safety equivalent to that established by the existing airworthiness standards.

DATES: The effective date of these special conditions is March 20, 2008.

SUPPLEMENTARY INFORMATION:

Change to Special Condition Number 4

The FAA previously notified the public of our intent to issue special conditions for seats with non-traditional, large, non-metallic panels on various airplane makes and models. Notice of Proposed Special Conditions No. 25-06-13-C, applicable to Boeing

Model 737 series airplanes, was published in the **Federal Register** on November 9, 2006 (71 FR 65761). The special conditions were issued on June 29, 2007 (Docket No. NM 359, Special Conditions No. 25-358-SC), published in the **Federal Register** on July 10, 2007 (72 FR 37425), and became effective on August 9, 2007. Both the Notice and the Final Special Conditions contained these words:

We anticipate that seats with non-traditional, large, non-metallic panels will be installed in other makes and models of airplanes. We have made the determination to require special conditions for all applications requesting the installation of seats with non-traditional, large, non-metallic panels until the airworthiness requirements can be revised to address this issue. Having the same standards across the range of airplane makes and models will ensure a level playing field for the aviation industry.

Special condition number 4 in the 737 special conditions limits the applicability of the special conditions to new seat certification programs applied for after the effective date of the special conditions. In these special conditions the FAA changed the applicability to
