Title: Part 32, Uniform System of Accounts for Telecommunications Companies.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Frequency of Response: Recordkeeping; on occasion reporting requirements.

Total Annual Burden: 1,463,496 hrs.

Needs and Uses: The Uniform System of Accounts is an historical financial accounting system that reports the results of operational and financial events in a manner that enables both management and regulators to assess these results within a specified accounting period. Subject respondents are telecommunications companies. Entities having annual revenues from regulatory telecommunications operations of less than \$114 million are designated as Class B and are subject to a less detailed accounting system than are those designated as Class A companies. In the Order on Reconsideration issued in CC Docket Number 00-199, the FCC reinstated Account 3400, Accumulated Amortization-Tangible.

OMB Control Number: 3060-0556.

Title: Special Requirements for 406.025 MHz EPIRBs.

Estimated Time per Response: 5.04 mins (0.084 hrs.).

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 798 hours.

Needs and Uses: 47 CFR Section 80.1061 requires owners of 406.025 MHz Emergency Position Indicating Radiobeacons (EPIRBs) to register information such as name, address, and type of vessel with the National Oceanic and Atmospheric Administration (NOAA). If the collection were not conducted, NOAA would not have access to this information, which would increase the time needed to complete a search and rescue operation.

The Commission staff use these data to ensure that applicants are qualified to participate in Commission auctions and to ensure that license winners are entitled to receive the new entrant bidding credit, if applicable. Exhibits regarding joint bidding agreements are designed to prevent collusion. Submission of engineering exhibits for non-table services enables the Commission to determine which applications are mutually exclusive.

On October 11, 2001, the Commission adopted a Report and Order, which extended this requirement to noncommercial educational television licensees. Licensees use FCC Form 317 to report whether they provided ancillary or supplementary services, which services were provided, the services provided that are subject to a fee, gross revenues received from all feeable ancillary and supplementary services, and the amount of bitstream used to provide ancillary or supplementary service. The data are collected annually from digital television licensees. Licensees providing services subject to a fee are also required to file FCC Form 159 (3060-0589) annually to remit the required fee. Each licensee will be required to retain the records supporting the calculation of the fees due for three

years from the date of remittance of fees. The FCC staff uses the data to ensure that DTV licensees comply with the requirements of section 336(e) of the Communications Act.
