l. *Description of Request*: The licensee proposes to amend the project boundary and relocate approximately 1,250 feet of the project transmission line. The transmission line is bordered by lands owned by the Anson-Madison Sanitary District (District). Due to an expansion and upgrade of the District's facilities, it has requested that the licensee's 1,250-foot section of transmission line be relocated a negligible distance southwest of its current location. The relocation would not change the length of the transmission line or quantity of lands within the project boundary. There would be minor ground disturbance in a previously disturbed area with the installation of six new transmission line poles. The District would be the lead for all other agency consultation and would manage construction activities associated with the transmission line.

In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding.
