

evaluating an investment in a security. Form N-6 also requires separate accounts organized as unit investment trusts that offer variable life insurance policies to provide investors with a prospectus and a statement of additional information ("SAI") covering essential information about the separate account when it makes an initial or additional offering of its securities.

The Commission estimates that approximately 472 registration statements (396 post-effective amendments plus 76 initial registration statements) are filed on Form N-6 annually. The estimated hour burden per portfolio for preparing and filing an initial registration statement on Form N-6 is 770.25 hours. The estimated annual hour burden for preparing and filing initial registration statements is 58,539 hours (76 initial registration statements annually times 770.25 hours per registration statement). The Commission estimates that the hour burden for preparing and filing a post-effective amendment on Form N-6 is 67.5 hours. The total annual hour burden for preparing and filing post-effective amendments is 26,730 hours (396 post-effective amendments annually times 67.5 hours per amendment). The frequency of response is annual. The total annual hour burden for Form N-6, therefore, is estimated to be 85,269 hours (58,539 hours for initial registration statements plus 26,730 hours for post-effective amendments).

The Commission estimates that the cost burden for preparing an initial Form N-6 filing is \$24,169 per portfolio and the current cost burden for preparing a post-effective amendment to a previously effective registration statement is \$8,788 per portfolio. The Commission estimates that, on an annual basis, 76 portfolios will be referenced in an initial Form N-6 and 396 portfolios will be referenced in a post-effective amendment of Form N-6. Thus, the total cost burden allocated to Form N-6 would be \$5,316,892.

The information collection requirements imposed by Form N-6 are mandatory. Responses to the collection of information will not be kept confidential. Estimates of average burden hours are made solely for the purposes of the Paperwork Reduction Act, and are not derived from a comprehensive or even a representative survey or study of the costs of Commission rules and forms. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid control number.

The public may view the background documentation for this information collection at the following Web site, www.reginfo.gov. Comments should be directed to: (i) Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10102, New Executive Office Building, Washington, DC 20503, or by sending an email to: Shagufta_Ahmed@omb.eop.gov; and (ii) Pamela Dyson, Director/Chief Information Officer, Securities and Exchange Commission, c/o Remi Pavlik-Simon, 100 F Street NE., Washington, DC 20549 or send an email to: PRA_Mailbox@sec.gov. Comments must be submitted to OMB within 30 days of this notice.

SBIR/STTR Logo Design Competition Announcement; Correction

The Small Business Administration published a document in the **Federal Register** of May 5, 2015 (Vol. 80, No. 86, Pages 25763-25765), concerning the announcement of a competition to design a logo for the Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) Programs. This document was corrected (with scheduled publication of May 11, 2015) to reflect the fact that the competition was only going to be judged by SBA Officials and other SBIR/STTR Program Managers.

The initial and corrected documents did not include a monetary prize to be awarded to the winner. By way of this memo, SBA has made a determination that the document needs to be corrected again to include a prize of \$2,500.

In the document printed on May 5, 2015, the first full sentence on page 25764 under the caption: "4. Prizes for Winners" did not include the mentioning of any monetary prize for the winner. This reference should be corrected and the sentence should read:

4. Prizes for Winners: The winning contestant will be awarded a \$2,500 prize and the design will become the official logo for the SBIR/STTR Programs, the Programs'

Web site at sbir.gov, and any official SBA, SBIR Program and/or STTR Program purpose.

John R. Williams,

Director, Office of Innovation and Technology.

SMALL BUSINESS ADMINISTRATION

Data Collection Available for Public Comments

ACTION: 60-Day notice and request for comments.

SUMMARY: The Small Business Administration (SBA) intends to request approval, from the Office of Management and Budget (OMB) for the new collection of information described below. The Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. Chapter 35 requires federal agencies to publish a notice in the **Federal Register** concerning each proposed collection of information before submission to OMB, and to allow 60 days for public comment in response to the notice. This notice complies with that requirement.

DATES: Submit comments on or before July 14, 2015.

ADDRESSES: Send all comments to Delcine Montgomery, Contracting Officer Technical Representative, Office of Native American Affairs, U.S. Small Business Administration, 409 3rd Street SW., Suite 6700, Washington, DC 20416.

FOR FURTHER INFORMATION CONTACT: Delcine Montgomery, Contracting Officer Technical Representative, 202-205-6195 or delcine.montgomery@sba.gov, or Curtis B. Rich, Management Analyst, 202-205-7030, curtis.rich@sba.gov.

SUPPLEMENTARY INFORMATION: In October 2013, the SBA's Office of the Native Business Development awarded a contract to Cherokee Nation Technology Solutions, LLC (CNTS) to provide 8(a) Business Development Program training to American Indian Tribes (AITs) Alaskan Native Corporations (ANCs) and Native Hawaiian Organizations (NHOs). The primary purpose of Native American 8(a) Business Development Program Workshops Training Initiative (the Native American 8(a) BD Workshops) is to improve the Native American business owners and entrepreneur's understanding of the SBA 8(a) Business Development program's eligibility requirements and application process, business operation features for successful contract management, revenue-generating/job-

creating capabilities as a tribal 8(a) certified federal contractor.

SBA plans to conduct a performance evaluation of the Native American 8(a) BD Workshops to assess the training services provided to individuals who directly and indirectly obtained the information and knowledge from the workshops, the preliminary impact of training on the business goals of direct and indirect participants, participant satisfaction with the training provider, and lessons learned and recommendations by the CNTS and the participants in the workshops. One unique feature of the implementation of the Native American 8(a) BD Workshops is that a significant number of participants were representing tribal organizations such as Leadership, Tribal Council, and Economic/Business Development. With the participation of the tribal representatives, there is a strong possibility that the knowledge learned from Native American 8(a) BD Workshops could be further disseminated by these tribal representatives to the other members/business owners of the tribes. Therefore, SBA plans to enhance and increase the data collection of performance metrics and collect survey data from participants who attended the workshops and the individuals who indirectly obtained the related knowledge from the tribal representatives. These data will facilitate the comprehensive assessment of Native American 8(a) BD workshop operations, outcomes and impacts.

Specifically, SBA proposes the use of two different instruments for data collection and analysis: (1) The Native American 8(a) Business Development Program Workshops Training Initiative Direct Participant Survey; and (2) the Native American 8(a) Business Development Program Workshops Training Initiative Indirect Participant Survey. Both of the surveys will be administered electronically and will contain both open- and close-ended questions. The types of information that will be collected in the instruments can be found in the "Summary of Information Collection" section below. Both quantitative and qualitative data analyses will be conducted. Quantitative analysis will consist of univariate and multivariate statistical techniques to summarize surveys results and explore the relationships among various data elements. The qualitative analysis will consist of identifying and interpreting themes for the open-ended survey questions. The information collected and analyzed from the survey instruments will be used to develop performance metrics, establish the

achievement of the program's goals as well as providing recommendations on improving program operations.

(a) Solicitation of Public Comments

SBA is requesting comments on (a) whether the collection of information is necessary for the agency to properly perform its functions; (b) whether the burden estimates are accurate; (c) whether there are ways to minimize the burden, including through the use of automated techniques or other forms of information technology; and (d) whether there are ways to enhance the quality, utility, and clarity of the information.

(b) Summary of Information Collection

1. Native American 8(a) Business Development Program Workshops Training Initiative Direct Participant Outcome Survey

Description and Number of Respondents: The web surveys will be conducted with participants who directly attended Native American 8(a) BD Program Workshops in FY2014. The direct participant survey will be provided to a total of 422 direct participants who attended the workshops in all 31 locations during FY2014. SBA is anticipating a 25% response rate and, as a result, it's estimated that 105 direct workshop participants will complete the Native American 8(a) BD direct participant web survey.

The direct participants survey will consist of questions about the demographics of participants, their business characteristics, needs and goals, whether the workshop staff effectively assessed their business needs before conducting the training services, the types of training received, the training resources other than Native American 8(a) BD Workshops that they used, participant outcomes, impact of training, and participant satisfaction with the workshops.

Estimated Responses and Hour Burden: The total estimated number of responses to the survey will be 105 at an estimated average completion time is approximately 28 minutes. The total estimated annual hour burden is 506.22 for the Native American 8(a) BD Workshops Direct Participant Outcome Survey. It includes the hour burden (48.3 hours) to the 105 respondents for completing the web survey, receiving thank you letters after completion of the survey, the hours burden for the pretesting conducted with 8 participants, as well as multiple contacts with all 422 potential respondents, such as the announcement from directors, the survey invite, the

reminder email from the directors, the reminder email from community leaders, and three reminder emails. The total annual burden also includes compiling the indirect participant list by tribal representatives who attended the workshop and the burden of sending the survey announcement letter by the tribal representatives to the indirect participants.

2. Native American 8(a) Business Development Program Workshops Training Initiative Indirect Participant Outcome Survey

Description and Number of Respondents: The web surveys will be conducted with Native American business owners and entrepreneurs who did not attend Native American 8(a) Business Development Program Workshops in FY2014, but obtained the knowledge and information related to the Native American 8(a) BD Program from the tribal representatives. SBA estimates that the sample size for indirect participants will be 275, based on 110 tribal representatives attending the workshops, the 25% response rate, and an average of 10 indirect participants per a tribal representative. The response rate for these 275 potential respondents is estimated to be 25%, resulting in the sample size of 69 completed the surveys. The indirect participant's survey will consist of questions about the demographics of participants as well as their business characteristics, needs and goals, the information they received, the business assistance resources they used, business outcomes, impact of obtained information, and their satisfaction with the obtained information.

Estimated Responses and Hour Burden: The total estimated number of responses from this survey will be 69. The estimated average completion time of a survey is approximately 25 minutes. The total estimated annual hour burden is 166.5. In addition to the hour burden (i.e. 28.98 hours) to the 69 respondents for completing the indirect participant outcome survey, this annual hour burden (i.e. 166.5 hours) also includes the burden of 275 program indirect participants reading the announcement email from tribal organization representatives, reading survey invite and four reminder emails and 69 respondents receiving thank you letters after completion of the survey.

Total Estimated Respondents for both survey instruments: 174, including 105 direct participants and 69 indirect participants.

Total Estimated Annual Hour Burden for both survey instruments:
Approximately 672.72 hours.

Management Analyst.
