

List of Subjects in 47 CFR Part 73

Television, Digital television broadcasting.

For the reasons discussed in the preamble, the Federal Communications Commission proposes to amend 47 CFR part 73 as follows:

PART 73—TELEVISION BROADCAST SERVICES

1. The authority citation for part 73 continues to read as follows:

Authority: 47 U.S.C. 154, 303, 334, and 336.

§ 73.622 [Amended]

2. Section 73.622(b), the Table of Digital Television Allotments under South Carolina is amended by removing DTV Channel 59 and adding DTV Channel 50 at Charleston.

Federal Communications Commission.

Barbara A. Kreisman,

Chief, Video Services Division, Mass Media Bureau.

BILLING CODE 6712-01-P

DEPARTMENT OF THE INTERIOR**Fish and Wildlife Service****50 CFR Part 17****Endangered and Threatened Wildlife and Plants, Notice of Reinstatement of the 1993 Proposed Listing of the Flat-tailed Horned Lizard as a Threatened Species and the Reopening of The Comment Period on The Proposed Rule**

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of reinstatement of proposed rule.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service) announces the reinstatement of the 1993 proposed listing of the flat-tailed horned lizard (*Phrynosoma mcallii*) as a threatened species, and the reopening of the public comment period on this proposed listing. On November 29, 1993, we published a rule proposing threatened status for the flat-tailed horned lizard, pursuant to the Endangered Species Act of 1973, as amended (Act). On July 15, 1997, we withdrew the proposed rule to list the flat-tailed horned lizard as threatened based on information available at that time. On July 31, 2001, the Ninth Circuit Court of Appeals vacated an earlier ruling from the District Court for the Southern District of California that upheld the withdrawal of the proposed listing of the lizard as threatened. Moreover, the Ninth Circuit directed the District Court to remand the withdrawal decision to the Service for consideration in accord with the legal standards outlined in its opinion. On October 24, 2001, the District Court remanded the matter to the Service and, with the parties consent, ordered the Service to reinstate the 1993 proposed listing for the flat-tailed horned lizard within 60 calendar days, and complete the final listing decision within 12 months from the date of reinstatement.

Consequently, we are hereby providing notice that the 1993 proposed rule for the flat-tailed horned lizard is reinstated, and that we will complete a final listing decision for the flat-tailed horned lizard by December 26, 2002.

In addition, we are reopening the public comment period for 120 days on the 1993 proposed listing rule to obtain information concerning the current status, ecology, distribution, threats to, and management/conservation efforts in place for the flat-tailed horned lizard to make a new final listing determination based on the best scientific and commercial data currently available.

DATES: We will consider comments on this proposal received by the close of business on April 25, 2002. Any comments that are received after the closing date may not be considered in the final decision on this action. Requests for a public hearing must be received by February 11, 2002.

ADDRESSES: Comments: If you wish to comment on the reinstated proposed rule or provide additional information concerning the status of the species, you may submit your comments and materials by any one of several methods: You may submit written comments and information to Field Supervisor, Carlsbad Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2730 Loker Avenue West, Carlsbad, California 92008. You may hand-deliver written comments to our Carlsbad Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2730 Loker Avenue West, Carlsbad, California 92008. You may send comments by electronic mail (e-mail) to fthl@r1.fws.gov.

For further information or a copy of the proposed rule contact: Ms. Sandy Vissman or Mr. Christopher Otahal, Carlsbad Fish and Wildlife Office, at the above address (telephone 760-431-9440; facsimile 760-431-9624).

SUPPLEMENTARY INFORMATION: The flat-tailed horned lizard is a small, cryptically colored, lizard that reaches a maximum adult body length (excluding the tail) of approximately 81 millimeters (3.2 inches). The lizard has a flattened body, short tail, and dagger-like head spines like other horned lizards. It is distinguished from other horned lizards in its range by a dark vertebral stripe, two slender elongated occipital spines, and the absence of external ear openings. The upper surface of the flat-tailed horned lizard is pale gray to light rusty brown. The underside is white and unmarked, with the exception of a prominent umbilical scar.

The flat-tailed horned lizard is endemic (restricted) to the Sonoran Desert in southern California and
