Instructions: All submissions received must include the title "Institute" and CSREES-2008-0004. All comments received will be posted to <http://www.regulations.gov>, including any personal information provided.

FOR FURTHER INFORMATION CONTACT: Judy Rude, (202) 720-4242 (phone), (202) 690-0289 (fax), or Institute@csrees.usda.gov.

SUPPLEMENTARY INFORMATION:

Additional Comment Procedures

Descriptions of the principles guiding deliberations relative to establishing the Institute are available for review at <http://www.csrees.usda.gov/newsroom/pdfs/Scientists,%20Educators,%20and%20Stakeholders%20Letter.pdf>. Written comments must be received by close of business, Friday, February 6, 2009, to be considered. All comments, when they become available, may be reviewed on the CSREES Web page for six months.

Background and Purpose

The establishment of the National Institute of Food and Agriculture is mandated in section 251(f) of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 6971(f)), as added to section 7511(a)(4) of the Food, Conservation, and Energy Act (FCEA) of 2008 (Pub. L. 110-246). The Secretary shall transfer to the Institute, effective not later than October 1, 2009, the authorities (including all budget authorities, available appropriations, and personnel), duties, obligations, and related legal and administrative functions prescribed by law or otherwise granted to the Secretary, the Department, or any other agency or official of the Department under capacity and infrastructure programs; competitive programs; the research, education, economic, cooperative State research programs, cooperative extension and education programs, international programs, and other functions and authorities delegated by the Under Secretary for Research, Education, and Economics (Under Secretary for REE) to the Administrator of CSREES pursuant to section 2.66 of title 7, Code of Federal Regulations (or successor regulations); and any and all other authorities administered by the Administrator of CSREES. The terms "capacity and

infrastructure programs" and "competitive programs" are defined in section 251(f)(1) (7 U.S.C. 6971(f)(1)).

The Institute shall be headed by a Director, who shall be an individual who is a distinguished scientist and appointed by the President. The Secretary has determined that the Director shall report to the Under Secretary for REE, who also holds the title of Chief Scientist of USDA and is responsible for the coordination of research, education, and extension activities of USDA. The Director shall serve for a 6-year term, subject to reappointment for an additional 6-year term; periodically report to the Under Secretary for REE with respect to activities carried out by the Institute; and consult regularly with the Under Secretary for REE to ensure, to the maximum extent practicable, that research of the Institute is relevant to agriculture in the United States and otherwise serves the national interest; and that the research of the Institute supplements and enhances, and does not supplant, research conducted or funded by other Federal agencies. The Director shall exercise all of the authority provided to the Institute by section 251(f) (7 U.S.C. 6971(f)); formulate and administer programs in accordance with policies adopted by the Institute, in coordination with the Under Secretary for REE; establish offices within the Institute; establish procedures for the provision and administration of grants by the Institute; and consult regularly with the National Agricultural Research, Extension, Education, and Economics Advisory Board.

The Director shall organize offices and functions within the Institute to administer fundamental and applied research and extension and education programs. The Director shall ensure the research priorities established by the Under Secretary for REE through the Research, Education and Extension Office are carried out by the offices and functions of the Institute, where applicable. Per 7 U.S.C. 6971(e)(1), the Under Secretary for REE is required to organize within the Office of the Under Secretary for REE six Divisions, to be known collectively as the 'Research, Education, and Extension Office', which shall coordinate the research programs and activities of the Department.

The Director shall determine an appropriate balance between fundamental and applied research programs and functions to ensure future research needs are met and designate staff, as appropriate, to assist in carrying out this function. The Director shall promote the use and growth of grants

awarded through a competitive process and designate staff, as appropriate, to assist in carrying out this function. Finally, the Director shall ensure that the offices and functions established within the Institute are effectively coordinated for maximum efficiency.

Implementation Plans

CSREES plans to consider stakeholder input received from written comments in developing a proposed organization for approval by USDA and with an implementation date of not later than October 1, 2009.

Done at Washington, DC, this 29th day of December, 2008.

Colien Hefferan,

Administrator, Cooperative State Research, Education, and Extension Service.

BILLING CODE 3410-22-P

DEPARTMENT OF AGRICULTURE

Forest Service

Bend/Ft. Rock Ranger District; Deschutes National Forest; Oregon; Kapka Butte Sno-Park Construction

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an Environmental Impact Statement.

SUMMARY: The USDA, Forest Service, will prepare an Environmental Impact Statement (EIS) on a proposed action to construct a sno-park, designate motorized and non-motorized over-snow trails to link the parking facility to existing snowmobile and nordic trail systems, and designate new over-snow dog-friendly snowshoe and skier trails to enhance recreational opportunities from the new facility. The proposed sno-park would be located on National Forest lands between Kapka Butte and the junction of Forest Road 46 (Cascade Lakes Highway) and Forest Road 45 (Sunriver cutoff). The proposed sno-park area is located about 30 miles west of Bend, Oregon; it is located in Section 35, Township 18S, Range 9E. The alternatives will include the proposed action, no action, and additional alternatives that respond to issues generated through the scoping process. The agency will give notice of the full environmental analysis and decision making process so interested and affected people may participate and contribute to the final decision.

DATES: Comments concerning the scope of the analysis must be received by 30 days following the date that this notice appears in the **Federal Register**.

ADDRESSES: Send written comments to Shane Jeffries, District Ranger, Bend/Ft. Rock Ranger District, 1230 NE 3rd St., Suite A-262, Bend, OR 97701.

FOR FURTHER INFORMATION CONTACT:

Marv Lang, Project Leader, Bend/Ft. Rock Ranger District, 1230 NE 3rd St., Suite A-262, Bend, Oregon 97701, phone (541) 383-4793. E-mail melang@fs.fed.us.

Responsible Official. The responsible official will be Shane Jeffries, District Ranger, Bend-Fort Rock Ranger District, 1230 NE Third St., Ste. A-262, Bend, OR 97701.

SUPPLEMENTARY INFORMATION:

Purpose and Need. The Deschutes National Forest sees a need to provide high elevation parking that will enhance a variety of winter recreation opportunities near Mt. Bachelor. On most weekend and holiday periods during the wintertime near Mt. Bachelor, it is not unusual to see parking lots full of vehicles, causing over-flow parking in inappropriate locations such as chain-up areas. This has been a progressive condition since the mid-1990s and has reached a point where it has become a public safety concern. More winter uses, such as snowshoeing, backcountry skiing and skijoring, have become more popular in recent years. These newer uses on top of the already high use that the area near Mt. Bachelor receives have created the congestion that occurs at all of the sno-parks. A result of the crowded conditions is inappropriate parking along the Cascade Lake Highway during weekends and holidays, causing traffic problems for the traveling public, emergency vehicles, and snow plowing equipment. This persistent condition demonstrates a need for additional safe parking facilities that provide access to over snow trail systems during more marginal snow conditions than the lower elevation sno-parks currently provide. It's also important that this occurs in a location where regular snowplowing can also be accomplished in an economically feasible manner.

Proposed Action. The Forest Service is proposing to build a new sno-park near Kapka Butte to provide more high elevation parking for winter recreationists along an established snowplowing route. The proposed facility would provide for a mix of vehicle parking, including vehicles towing trailers and some slots designed for smaller vehicles. The proposed parking facility would include approximately 70 slots for trailers, and 40 slots for non-trailer vehicles. Trail links to existing snowmobile and nordic trails would also be provided as well as

new proposed trails for nordic skiing, snowshoeing and skiing with dogs.

Comment. Public comments about this proposal are requested in order to assist in identifying issues, determine how to best manage the resources, and to focus the analysis. Comments received to this notice, including names and addresses of those who comment, will be considered part of the public record on this proposed action and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR parts 215. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that, under FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality, and where the request is denied, the agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within a specified number of days.

A draft EIS will be filed with the Environmental Protection Agency (EPA) and available for public review by Spring 2009. The EPA will publish a Notice of Availability (NOA) of the draft EIS in the **Federal Register**. The final EIS is scheduled to be available Autumn 2009.

The comment period on the draft EIS will be 45 days from the date the EPA publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of a draft EIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions [*Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978)]. Also, environmental objections that could be raised at the draft EIS stage but that are not raised until after completion of the final EIS may be waived or dismissed by the courts [*City of Angoon v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980)]. Because of these court rulings, it is very important that those

interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft EIS of the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

In the final EIS, the Forest Service is required to respond to substantive comments received during the comment period for the draft EIS. The Forest Service is the lead agency and the responsible official is the Bend-Fort Rock District Ranger, Deschutes National Forest. The responsible official will decide where, and whether or not to construct the sno-park and associated trails. The responsible official will also decide how to mitigate impacts of these actions and will determine when and how monitoring of effects will take place.

The Kapka Butte Sno-park Project decision and the reasons for the decision will be documented in the Record of Decision. That decision will be subject to Forest Service Appeal Regulations (35 CFR Part 215).

Sean A. Ferrell,

Assistant District Ranger.
