The purpose of the research would be to assess the physiological response of loggerhead, green, and Kemp's ridley

sea turtles to entanglement in fishing gear, identify post-release mortality events, and integrate these data to assess the feasibility of using biochemical indices as predictors of post-release mortality. The research would also provide information on the movements of sea turtles utilizing the lower Cape Fear River. Researchers would annually capture up to 20 loggerhead, 20 green, and 5 Kemp's ridley sea turtles for a 3-year period using gillnets. Animals would be measured, weighed, blood sampled, passive integrated transponder tagged, satellite transmitter tagged, VHF tagged and tracked, have their cloacal body temperature taken, and be released. Up to 30 percent of the animals captured could die after release.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Request for Public Comment on Short Supply Petition under the North American Free Trade Agreement (NAFTA)

April 7, 2006.

AGENCY: The Committee for the Implementation of Textile Agreements (CITA)

ACTION: Request for Public Comments concerning a request for modification of the NAFTA rules of origin for blankets made from acrylic staple fiber.

SUMMARY: On March 24, 2006 the Chairman of CITA received a request from Biederlack of America alleging that acrylic staple fiber, not carded, combed or otherwise processed for spinning, classified in subheading 5503.30 of the Harmonized Tariff Schedule of the United States (HTSUS), cannot be supplied by the domestic industry in commercial quantities in a timely manner and requesting that CITA consider whether the North American Free Trade Agreement (NAFTA) rule of origin for blankets classified under HTSUS subheading 6301.40 should be modified to allow the use of non-North American acrylic staple fiber.

The President may proclaim a modification to the NAFTA rules of origin only after reaching an agreement with the other NAFTA countries on the modification. CITA hereby solicits public comments on this request, in

particular with regard to whether acrylic staple fiber of HTSUS subheading 5503.30 can be supplied by the domestic industry in commercial quantities in a timely manner. Comments must be submitted by May 12, 2006 to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001, United States Department of Commerce, Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT:

Martin J. Walsh, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-2818.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 USC 1854); Section 202(q) of the North American Free Trade Agreement Implementation Act (19 USC 3332(q)); Executive Order 11651 of March 3, 1972, as amended.

BACKGROUND:

Under the NAFTA, the member countries are required to eliminate customs duties on textile and apparel goods that qualify as originating goods under the NAFTA rules of origin, which are set out in Annex 401 to the NAFTA. The NAFTA provides that the rules of origin for textile and apparel products may be amended through a subsequent agreement by the NAFTA countries. See *Section 202(q) of the NAFTA Implementation Act*. In consultations regarding such a change, the NAFTA countries are to consider issues of availability of supply of fibers, yarns, or fabrics in the free trade area and whether domestic producers are capable of supplying commercial quantities of the good in a timely manner. The Statement of Administrative Action (SAA) that accompanied the NAFTA Implementation Act stated that any interested person may submit to CITA a request for a modification to a particular rule of origin based on a change in the availability in North America of a particular fiber, yarn or fabric and that the requesting party would bear the burden of demonstrating that a change is warranted. *NAFTA Implementation Act, SAA, H. Doc. 103-159, Vol. 1, at 491* (1993). The SAA provides that CITA may make a recommendation to the President regarding a change to a rule of origin for a textile or apparel good. *SAA at 491*. The NAFTA Implementation Act provides the President with the authority to proclaim modifications to the NAFTA rules of origin as are necessary to implement an agreement with one or more NAFTA country on such a modification. See *section 202(q) of the NAFTA Implementation Act*.

On March 24, 2006 the Chairman of CITA received a request from Biederlack of America alleging that acrylic staple fiber, not carded, combed or otherwise processed for spinning, classified in subheading 5503.30 of the Harmonized Tariff Schedule of the United States (HTSUS), cannot be supplied by the domestic industry in commercial quantities in a timely manner and requesting that CITA consider whether the NAFTA rule of origin for blankets classified under HTSUS subheading 6301.40 should be modified to allow the use of non-North American acrylic staple fiber. The petitioner requested that the modification be effective for entries made on or after January 24, 2006, the date they alleged production of all acrylic fiber that meets their specifications ended in North America.

CITA is soliciting public comments regarding this request, particularly with respect to whether acrylic staple fiber can be supplied by the domestic industry in commercial quantities in a timely manner. Comments must be received no later than May 12, 2006. Interested persons are invited to submit six copies of such comments or information to the Chairman, Committee for the Implementation of Textile Agreements, room 3100, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC 20230.

If a comment alleges that acrylic staple fiber can be supplied by the domestic industry in commercial quantities in a timely manner, CITA will closely review any supporting documentation, such as a signed statement by a manufacturer stating that it produces fiber that is the subject of the request, including the quantities that can be supplied and the time necessary to fill an order, as well as any relevant information regarding past production.

CITA will protect any business confidential information that is marked business confidential from disclosure to the full extent permitted by law. CITA will make available to the public non-confidential versions of the request and non-confidential versions of any public comments received with respect to a request in room 3100 in the Herbert Hoover Building, 14th and Constitution Avenue, N.W., Washington, DC 20230. Persons submitting comments on a request are encouraged to include a non-confidential version and a non-confidential summary.

James C. Leonard III,
Chairman, Committee for the Implementation of Textile Agreements.
