SUPPLEMENTARY INFORMATION: Section 4262 of the Employee Retirement Income Security Act of 1974 (ERISA) requires PBGC to provide special financial assistance (SFA) to certain financially troubled multiemployer plans upon application for assistance. Part 4262 of PBGC's regulations, "Special Financial Assistance by PBGC," provides guidance to multiemployer pension plan sponsors on eligibility, determining the amount of SFA, content of an application for SFA, the process of applying, PBGC's review of applications, restrictions and conditions, and reporting and notice requirements.

To apply for SFA, a plan sponsor must file an application with PBGC and include information about the plan, plan documentation, and actuarial information, as specified in sections 4262.6 through 4262.9. Also, if the plan is changing certain assumptions for purposes of demonstrating its eligibility for SFA or its requested amount of SFA, then the plan sponsor may use PBGC's SFA assumptions guidance. PBGC needs the application information to review a plan's eligibility for SFA and amount of requested SFA. PBGC estimates that over the next 3 years an annual average of 59 plan sponsors will file applications for SFA with an average annual hour burden of 590 hours and an average annual cost burden of \$1,770,000.

Under section 4262.10(g), a plan sponsor may, but is not required to, file a lock-in application as a plan's initial application. The lock-in application contains basic information about the plan and a statement of intent to lock-

in base data. PBGC needs the information in the lock-in application to ensure that a plan sponsor intends to lock-in the plan's data. PBGC estimates that over the next 3 years an annual average of 23 plan sponsors will file lock-in applications for SFA with an average annual hour burden of 23 hours and an average annual cost burden of \$18,400.

Under section 4262.16(i), a plan sponsor of a plan that has received SFA must file an Annual Statement of Compliance with the restrictions and conditions under section 4262 of ERISA and part 4262 once every year through 2051. PBGC needs the information in the Annual Statement of Compliance to ensure that a plan is compliant with the imposed restrictions and conditions. PBGC estimates that over the next 3 years an annual average of 120 plan sponsors will file Annual Statements of Compliance with an average annual hour burden of 240 hours and an average annual cost burden of \$288,000.

Under section 4262.15(c), a plan sponsor of a plan with benefits that were suspended under sections 305(e)(9) or 4245(a) of ERISA must issue notices of reinstatement to participants and beneficiaries whose benefits were suspended and are being reinstated. Participants and beneficiaries need the notice of reinstatement to better understand the calculation and timing of their reinstated benefits and, if applicable, make-up payments. PBGC estimates that over the next 3 years an average of 5 plans per year will be required to send notices to participants with suspended benefits. PBGC estimates that these notices will impose an average annual hour burden of 10 hours and average annual cost burden of \$10,000.

Finally, under section 4262.16(d), (f), (g), and (h), a plan sponsor must file a request for a determination from PBGC for approval for an exception under certain circumstances for SFA conditions under section 4262.16 relating to reductions in contributions, transfers or mergers, and withdrawal liability. PBGC needs the information required for a request for determination to determine whether to approve an exception from the specified condition of receiving SFA. PBGC estimates that over the next 3 years, PBGC will receive an average of 3.2 requests per year for determinations. PBGC estimates an average annual hour burden of 15.6 hours and average annual cost burden of \$44,000.

The estimated aggregate average annual hour burden for the next 3 years for the information collection in part 4262 is 878.6 hours for employer and
