

they move from one location to another. Customers update their address through change-of-address, mail forwarding, or other related services. The USPS has determined that the provided information is needed to automatically update other related customer databases, including Customer Registration, that are presently separated from the NCOA database. The customer's new address information is needed in these separate databases so that requested products and services will continue to be received at their new address. These customer-based systems need to be integrated to meet customer needs and expectations, and to provide a positive customer experience. Current technological capabilities will be used to provide current and consistent capabilities across the systems to maintain the public's trust and to safeguard individual privacy.

## II. Rationale for Changes to USPS Privacy Act Systems of Records

Privacy Act System of Records 800.000, Address Change, Mail Forwarding, and Related Services and 810.100, *www.usps.com* Registration are being modified to permit the Postal Service to use change-of-address data to support the update of customer profile information in Customer Registration, and other customer related systems. These modifications are needed to facilitate the accurate and reliable delivery and fulfillment of requested postal products, services, and materials to the customer's new address. Also, in an effort to increase the number of completed change-of-address requests, the Postal Service is proposing to add an additional purpose to SOR 800.000, which would allow communication between USPS customers and the Postal Service for the purpose of sending a reminder to customers who have started the change-of-address process online, but abandon the process before completion.

Also, due to organizational changes, the Postal Service is adding a System Manager and Address to SOR 800.000.

## III. Description of Changes to Systems of Records

Pursuant to 5 U.S.C. 552a(e)(11), interested persons are invited to submit written data, views, or arguments on this proposal. A report of the proposed modifications has been sent to Congress and to the Office of Management and Budget for their evaluations. The Postal Service does not expect these amended systems of records to have any adverse effect on individual privacy rights. The affected systems are as follows:
