Schedule for the Decision-Making Process

APHIS will consider comments submitted in response to this notice of intent (NOI) when analyzing the potential impacts of the proposed alternatives for development of the draft EIS. Following completion of the draft EIS, APHIS will publish a notice of availability and request for public comments. APHIS expects to make the draft EIS available for public review and comment by November 2023. After the 45-day public review and comment period, APHIS will revise the draft EIS, as appropriate, and complete the final EIS. APHIS anticipates that the final EIS will be made available to the public by October 30, 2024. A record of decision will be issued no sooner than 30 days after the final EIS is released in accordance with 40 CFR 1506.11, but no later than December 1, 2024.

Public Scoping Process

This NOI initiates the public scoping process and will help guide the analysis. APHIS seeks public comment on this NOI to help identify potential alternatives or other issues that could be considered and any relevant information, studies or analyses that APHIS should consider in evaluating the potential impacts of the proposed alternatives on the quality of the human environment. To promote informed NEPA analysis and decision making, comments should be as specific as possible and explain why the issues raised are important for consideration in the EIS.

Comments should include, where possible, references and data sources supporting the information provided in the comment. We encourage the submission of scientific data, studies, or research to support your comments and an explanation of why the scientific data, study, or research is relevant and important.
