

persons or organizations charged with specific forestry-conservation activities, or medical emergency systems in the 450–470 MHz band, and who seek to connect within 120 km (75 miles) of 25 cities specified in 90.477(d)(3), must obtain the consent of all co-channel licensees located both within 120 km of the center of the city, and with 120 km of the interconnected base station transmitter. Consensual agreements must specifically state the terms agreed upon and a statement must be submitted to the Commission indicating that all co-channel licensees have consented to the use of interconnection.

In a December 1998 *Report and Order* in WT Docket Nos. 98–20 and 96–188, the Commission consolidated, revised and streamlined the Commission's rules governing the licensing application procedures for radio services licensed by the Commission's Wireless Telecommunications Bureau in order to fully implement the Universal Licensing System (ULS). As a result of the ULS rule conversions in connection with this information collection, 47 CFR section 90.477(a), interconnected systems now file all information (100 percent) electronically via ULS. Pursuant to 47 CFR sections 90.477(d)(3), interconnected systems were changed to reflect NAD83 coordinates.

## FEDERAL COMMUNICATIONS COMMISSION

### Information Collection Being Reviewed by the Federal Communications Commission

**AGENCY:** Federal Communication Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** The Federal Communications Commission (FCC), as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act (PRA) of 1995. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of

the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) Control Number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB Control Number.

**DATES:** Written Paperwork Reduction Act (PRA) comments should be submitted on or before July 11, 2011. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Leslie F. Smith, Federal Communications Commission (FCC), via e-mail to [PRA@fcc.gov](mailto:PRA@fcc.gov) or to [Leslie.Smith@fcc.gov](mailto:Leslie.Smith@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information the information collection, contact Leslie F. Smith at (202) 418–0217.

*Nature and Extent of Confidentiality:* The Commission is not requesting that the respondents submit confidential information to the FCC. Respondents may, however, request confidential treatment for information they believe to be confidential under 47 CFR Section 0.459 of the Commission's rules.

*Needs and Uses:* On August 4, 1998, the FCC released a *Report and Order* (R&O), Examination of Current Policy Concerning Treatment of Confidential Information Submitted to the Commission, CG Docket No. 96–55. The R&O included a Model Protective Order (MPO) that is used, when appropriate, to grant limited access to information that the Commission determines should not be routinely available for public inspection. The party granted access to the confidential information materials must keep a written record of all copies made and provide this record to the submitted of the confidential materials upon request. This approach was adopted to facilitate the use of confidential materials under an MPO, instead of restricting access to materials. In addition, the FCC amended 47 CFR Section 0.459(b) to set forth the type of information that should be included when a party submits information to the Commissions for which it seeks confidential treatment. This listing of types of information to be submitted was adopted to provide guidance to the public for confidentiality requests.
