

concern, HRSA informed the commenter that the contractor conducting the survey would address this by issuing each health center a document “in advance of the survey roll out that will detail the extensive precautions and guarantees regarding the collection, storage, use, and destruction of the email addresses provided, as well as the data security, de-identification, and reporting aggregation procedures that will be utilized to protect the content of the responses and the confidentiality of the respondents. If a health center has remaining concerns that are not addressed by those procedures, our team will directly discuss alternate means by which a tracked and closed response could be collected from staff at that organization.”

Need and Proposed Use of the Information: Health care workforce burnout has been a challenge even prior to COVID-19 and other recent public health crises. Clinicians and health care

staff have reported experiencing alarming rates of burnout, characterized as a high degree of emotional exhaustion, depersonalization, and a low sense of personal accomplishment at work.¹ Understanding the factors impacting workforce well-being and satisfaction, reducing burnout, and applying evidence-based technical assistance and other quality improvement strategies around workforce well-being is essential as the health center program health care workforce continues to respond to and recover from the COVID-19 pandemic and prepare for future health care delivery challenges.

Administration of the Health Center Workforce Well-being Survey will provide a comprehensive baseline assessment of health center workforce well-being and identify opportunities to improve workforce well-being and bolster technical assistance and other strategies. These efforts will further HRSA’s goal of providing access to

quality health care and supporting a robust primary care workforce.

Likely Respondents: Health center staff in HRSA funded health centers.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Health Center Workforce Survey	400,000	1	400,000	.50	200,000
Health Center Leader Support Activities	1,400	1	1,400	2.00	2,800
Total	401,400	401,400	202,800

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency’s functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Establishment of the Office of Environmental Justice

AGENCY: Office of the Assistant Secretary for Health, Office of the

Secretary, Department of Health and Human Services.

ACTION: Notice.

SUMMARY: The Office of the Assistant Secretary for Health (OASH) has modified its structure. This notice announces the establishment of the Office of Environmental Justice in OASH’s Office of Climate Change and Health Equity.

DATES: This reorganization was approved by the Secretary of Health and Human Services and takes effect May 31, 2022.

SUPPLEMENTARY INFORMATION: Statement of Organization and Functions, Part A, Office of the Secretary, Statement of Organization and Function for the U.S. Department of Health and Human Services (HHS or the Department) is being amended at Chapter AC, Office of the Assistant Secretary for Health (OASH), as last amended at 86 FR 48745, dated August 31, 2021, 75 FR 53304, dated August 31, 2010, and 72 FR 58095-96, dated October 12, 2007.

Background: Executive Order 14008, *Tackling the Climate Crisis at Home and Abroad*, directs agencies, including Department of Health and Human Services to make achieving environmental justice part of its mission by developing programs, policies, and activities to address the disproportionately high and adverse human health, environmental, and climate-related and other cumulative impacts on disadvantaged communities. This amendment reflects the establishment of an office to coordinate and provide expertise to support the Department’s efforts to protect the health of disadvantaged communities and vulnerable populations on the frontlines of pollution and environmental hazards. Specifically, the changes are as follows:

A. Under Part A, Chapter AC, under the Office of the Assistant Secretary for Health, add the following:

1. The Office of Environmental Justice (OEJ) is headed by a Director who reports to the Assistant Secretary for

¹ West, CP, Dyrbye, L.N., Satele, D.V, Sloan, J.A., & Shanafelt, T.D. (2012). Concurrent validity of

single-item measures of emotional exhaustion and depersonalization in burnout assessment. *J Gen*

Health through the Director of the Office of Climate Change and Health Equity.

2. OEJ shall work with the Immediate Office of the Secretary, Staff Divisions, and Operating Divisions to focus on:

- Leading initiatives that integrate environmental justice in the HHS mission to improve health in disadvantaged communities and vulnerable populations across the nation.
- Supporting senior leadership at OASH and HHS on environmental justice and health issues.
- Developing and implementing a HHS-wide strategy on environmental justice and health.
- Coordinating annual HHS environmental justice reports.
- Providing expertise and coordination to the White House, Secretary of HHS, and federal agencies related to environmental justice deliverables and activities, including executive order implementation.
- Providing HHS Office of Civil Rights with environmental justice expertise to support compliance under Title VI of the Civil Rights Act of 1964.
- Promoting training opportunities to build an environmental justice workforce.
