

The Open Ocean TIG, which is composed of the National Oceanic and Atmospheric Administration, the U.S. Department of the Interior, the U.S. Environmental Protection Agency, and the U.S. Department of Agriculture, selects and implements restoration projects under the Open Ocean TIG's management authority in accordance with the Consent Decree. The Final PDARP/PEIS, ROD, Consent Decree, and information on the DWH Trustees can be found at <https://www.gulfspillrestoration.noaa.gov/restoration-planning/gulf-plan>.

Background

On June 1, 2023, the Open Ocean TIG issued a notice of solicitation on the Gulf Spill Restoration website requesting project ideas for FWCI and Sea Turtles Restoration Types as described in the Final PDARP/PEIS. On June 25, 2024, the TIG announced on the Gulf Spill Restoration website that they reviewed project idea submissions and were initiating drafting of the RP4/EA which tiers from the Final PDARP/PEIS and would include a reasonable range of restoration project alternatives for the FWCI and Sea Turtle Restoration Types. On October 30, 2024, the Open Ocean TIG released the Draft RP4/EA for a 45-day public review period (89 FR 86321). To facilitate public understanding of the document, the Open Ocean TIG held webinars on November 14 and 20, 2024, during which public comments were solicited. The Open Ocean TIG accepted public comments through December 16, 2024. After the public review period closed, the Open Ocean TIG reviewed the comments received, prepared responses to those comments, finalized the plan, and prepared the FONSI.

Overview of the Open Ocean TIG Final RP4/EA

In the Final RP4/EA, the Open Ocean TIG analyzes a reasonable range of 12 project alternatives and, pursuant to the NEPA, a No Action alternative for each Restoration Type. Two of the alternatives are not preferred by the TIG at this time. The ten projects selected by the Open Ocean TIG for funding and implementation are listed below:

- Return 'Em Right: Species and Area Expansion;
- Next Generation Fishing;
- Communication Networks and Mapping Tools to Reduce Fish Mortality;
- Reduction of Stressors to Fish and Water Column Invertebrates;
- Education and Stewardship Partnerships with Charter Anglers;

- Communication, Adaptive Management, Planning, and Integration;
- Sea Turtle Nesting Habitat Protection Expansion in Florida (Long Term Nesting Habitat Protection for Sea Turtles);
- Sea Turtle Bycatch Reduction;
- Sea Turtle Vessel Strike Reduction;
- and
- Sea Turtle Stranding Network and Emergency Response Enhancements.

The total estimated cost to implement the ten preferred alternatives is approximately \$210,620,000. Funding to implement the alternatives selected by the Open Ocean TIG will come from the FWCI and Sea Turtles Restoration Types and Monitoring and Adaptive Management allocations. Additional restoration planning in the Open Ocean TIG will continue.

Administrative Record

The Administrative Record for the Final RP4/EA can be viewed electronically at <https://www.doi.gov/deepwaterhorizon/adminrecord> under the folder 6.5.2.2.4.

FOR FURTHER INFORMATION CONTACT:

Mark Kumagai, Associate Executive Director for Engineering Sciences, U.S. Consumer Product Safety Commission, 5 Research Place, Rockville, MD 20850; telephone: (301) 987–2234; email: mkumagai@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC provides critical public safety and law enforcement services protecting the public from unreasonable risks of injury or death associated with the use of the thousands of types of consumer products under the agency's jurisdiction. Deaths, injuries, and property damage from consumer product incidents cost the nation more than \$1 trillion annually. CPSC uses a variety of approaches to achieve its

mission. Among the agency's tools, CPSC promulgates regulations and issues guidance and interpretations concerning the safety of consumer products. Regulations and other practices that do not reasonably advance safety, but instead promote unscientific ideological agendas, create unnecessary burdens and costs, restrict consumer choice, or reduce competition, entrepreneurship, and innovation—and thereby restrain the American economy—should generally be eliminated or modified.

The Commission encourages members of the public—including consumers, manufacturers, retailers, potential market entrants, and others—to comment on ways to reduce burdens and costs of its existing rules, regulations, guidance, interpretations, or practices without increasing the risk of death or injury to consumers.

The Commission requests information and data in support of each suggestion. To submit your ideas and comments, please follow the instructions in the **ADDRESSES** section of this document.¹

Alberta E. Mills,
Secretary, Consumer Product Safety Commission.
