BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice: RNP SAAAR Approval Consultant Opportunities

ACTION: Notice and request for applications.

SUMMARY: The Federal Aviation Administration (FAA) announced today that it is seeking to identify qualified

industry consultants to assist 14 Code of Federal Regulations (CFR) Part 91, 121, 125, 129, 135 applicants as they pursue approval to conduct "Required Navigation Performance Special Aircraft and Aircrew Authorization Required" (RNP SAAAR) approaches. Provisions for gaining those approvals are contained within FAA Advisory Circular 90-101, "Approval Guidance for RNP Procedures with SAAAR." Applicants who meet certain qualifications will be permitted to enter into an agreement with the FAA to be listed as RNP SAAAR Approval Consultants.

DATES: Formal letter of application must be received on or before March 2, 2007.

FOR FURTHER INFORMATION CONTACT: Mr. Vincent Chirasello, Federal Aviation Administration, AFS-400 Flight Technologies and Procedures Division, 470 L'Enfant Plaza, Suite 4102, Washington, DC 20024, (202) 385-4586.

SUPPLEMENTARY INFORMATION: RNP SAAAR procedures provide an opportunity to improve safety, efficiency and capacity. Safety is improved when RNP approaches replace visual or non-precision approaches, and efficiency is improved through more repeatable and optimum flight paths. Capacity can be improved by de-conflicting traffic during instrument conditions. RNP SAAAR procedures provide an unprecedented flexibility in construction of approach procedures. RNP SAAAR procedures build upon the performance based National Airspace System (NAS) concept. The performance requirements to conduct an approach are defined, and aircraft are qualified against these performance requirements. RNP approaches include unique, characteristics that require special aircraft and aircrew capabilities and authorization similar to Category (CAT) II/III ILS operations. The AC 90-101 RNP SAAAR approval process is complex and the success of the process depends on the quality of the application. Although the FAA is committed to providing approval services, a reduced budget and increase in attrition leaves fewer resources available to assist new entrants in the approval process. In an effort to address this new RNP SAAAR entrant need, the FAA will develop and maintain a list of qualified AC 90-101 RNP SAAAR Approval Consultants to assist in the approval process. This process will benefit the general public by helping expedite new entrant applications.

(a) *Eligibility Requirements:* To be identified as an FAA-qualified RNP
