National Institute of General Medical Sciences; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute of General Medical Sciences Special Emphasis Panel; Review of NIGMS SCORE Applications.

Date: July 13, 2020.

Time: 10:00 a.m. to 6:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Natcher Building, Room 3AN12, 45 Center Drive, Bethesda, MD 20892 (Telephone Conference Call).

Contact Person: John J. Laffan, Ph.D., Scientific Review Officer, Office of Scientific Review, National Institute of General Medical Sciences, National Institutes of Health, Natcher Building, Room 3AN18J, Bethesda, MD 20892, (301) 594-2773, laffanjo@mail.nih.gov.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer at (240) 276-0361.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: National Substance Use and Mental Health Services Survey (N-SUMHSS) (OMB No. 0930-)

Historically SAMHSA collected information on substance use and mental health treatment facilities through two (2) separate data collections: The National Survey of Substance Abuse Treatment Services (N-SSATS; OMB No. 0930-0106) and the National Mental Health Services Survey (N-MHSS; OMB No. 0930-0119). SAMHSA also maintain as part of the N-SSATS data collection approval, an inventory of treatment facility, named the Inventory of Behavioral Health Services (I-BHS) (N-SSATS; OMB No. 0930-0106).

Some of the content and questions in the N-SSATS and N-MHSS data collection surveys are similar and represented an additional burden to approximately 14 percent of facilities that received both surveys. SAMHSA recognizes the need to have data collections that are less burdensome to these facilities that provide these services. To help reduce respondent

burden, increase efficiency, and better manage resources, SAMHSA goal is to combine these two surveys into the National Substance Use and Mental Health Services Survey (N-SUMHSS).

The N-SUMHSS, will include the facility characteristics and services questions currently asked in the N-SSATS and the N-MHSS. The survey will also collect, on an annual basis, client counts on those individuals receiving services at these facilities. Historically, client count information was collected every other year; however there is an increasing need to collect and maintain data on current and accurate numbers of clients in treatment at the local level for community to assess capacity and estimate resource requirements. This information on substance use and mental health services has assisted with communities to better respond to life changing events, (*i.e.*, hurricane) and plan for service demands in the event of a natural disaster, (*i.e.*, earthquakes).

SAMHSA requests is for approval of the N-SUMHSS data collection and the extension of the I-BHS data collection.

The N-SUMHSS survey will provide data on the numbers and types of patients treated and the characteristics of facilities providing substance use and mental health treatment services. The extension of the duration of the I-BHS survey, which is current authorized as part of N-SSATS (OMB No. 0930-0106), aligns it to the same period as the N-SUMHSS. These surveys are conducted under the authority of Section 505 of the Public Health Service Act (42 U.S.C. 290aa-4) to meet the specific mandates for annual information about public and private substance use/mental health treatment providers and the clients they serve.

This request includes:

- N-SUMHSS, an annual census of substance use and mental health treatment facilities which collects descriptive data on the location, scope of services provided, and operational characteristics of all known substance use and mental health treatment facilities in the United States and jurisdictions, and on utilization of services by means of a single-day count of clients in treatment; and

- I-BHS data collection activities associated with updating the inventory of both mental health treatment facilities and substance use treatment facilities.

The information in N-SUMHSS and I-BHS is needed to assess the nature and extent of these resources, to identify gaps in services, and to provide a database for treatment referrals.

The request for OMB approval will include a request to conduct the N-SUMHSS survey which includes facility characteristics and services and one-day client counts and to update the I-BHS facility listing on a continuous basis in 2021, 2022 and 2023. Also included in this request is the Between Cycle N-SUMHSS data collection (N-SUMHSS BC), to be conducted between annual surveys to collect information on new facilities for inclusion in the Treatment Locator. N-SUMHSS BC use is an abbreviated N-SUMHSS survey questionnaire.

The estimated annual burden for the I-BHS and BHSIS activities is as follows:

Type of respondent and activity	Number of respondents	Responses per respondent	Total responses	Hours per response	Total burden hours	Wage rate	Total hour cost
States							
I-BHS Online ¹	56	75	4,200	0.08	336	\$23	\$7,728
State Subtotal	56	4,200	336	7,728
Facilities							
I-BHS application ²	800	1	800	0.08	64	19.40	1,242
Augmentation screener	1,300	1	1,300	0.08	104	19.40	2,018
N-SUMHSS questionnaire (either SU or MH)	32,000	1	32,000	0.67	21,333	47.95	1,022,917
N-SUMHSS (both SU and MH)	5,000	1	5,000	1.17	5,833	47.95	279,692
N-SUMHSS BC	1,000	1	1,000	0.58	580	47.95	27,811
Facility Subtotal	40,100	40,100	27,914	1,333,680
Total	40,156	44,300	28,250	1,341,408

¹ States use the I-BHS Online system to submit information on newly licensed/approved facilities and on changes in facility name, address, status, etc.

² New facilities complete and submit the online I-BHS application form in order to get listed on the Inventory.

Send comments to Carlos Graham, SAMHSA Reports Clearance Officer, 5600 Fisher Lane, Room 15E57A, Rockville, MD 20852 OR email him a copy at carlos.graham@samhsa.hhs.gov. Written comments should be received by August 14, 2020.

Carlos Graham,

Social Science Analyst.
