

necessary to achieve the technology upgrade. The Bureau seeks comment on whether the method of calculating the lump sum payment for technology upgrades adequately addresses the needs of the stakeholders that may need to replace equipment to operate higher order modulation technologies to meet service demands in the remaining 200 megahertz of the C-band. Should there be additional technology upgrade lump

sum options based on a more specific demonstration of the level of equipment replacement that is needed? What type of demonstration should we require from MVPD earth station operators to receive technology upgrade lump sum payments? Are there other methods to address the technology upgrade needs for those interested in lump sum payments? How many received channels will need technology upgrades

in a typical transition? What percentage of MVPD earth station sites will need technology upgrades? What percentage of various cost factors need to be deployed in the typical transition?

Lump Sum Amounts. The Bureau seeks comment on the base lump sum amounts for each class of earth station as well as the technology upgrade lump sum amounts.

Estimated lump sum payments per earth station	Average estimated cost (\$)
Base Lump Sum Payments	
Receive-Only Earth Station (ES) Single-feed	5,217
Receive-Only ES Multi-feed	22,233
Receive-Only Small Multi-beam (2–4 beams) ES	43,159
Receive-Only Large Multi-beam (5+ beams) ES	53,381
Gateway ES (bi-directional)	20,726
Temporary Fixed ES (mobile Electronic News Gathering trucks)	3,060
Technology Upgrade Lump Sum Payments for Qualifying MVPD Earth Stations	
MVPD Downlink Technology Upgrades (per earth station)	70,782
Program Source Uplink Technology Upgrades	156,932

After this additional comment period, and consistent with the *3.7 GHz Report and Order*, the Bureau will consider the record compiled on these issues and publish the final lump sum amounts and provide instructions for making such an election.

Amy Brett,

Chief of Staff, Competition and Infrastructure Policy Division, Wireless Telecommunications Bureau.
