

collection techniques or other forms of information technology.

Comments regarding this information collection received by February 26, 2021 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

#### **Food and Nutrition Service**

*Title:* Child Nutrition Database.

*OMB Control Number:* 0584–0494.

*Summary of Collection:* The Child Nutrition Database (CNDB) is a necessary component and is required under 7 CFR 210.10(i)(2) and 7 CFR 220.8(i) to be part of the nutrient analysis software approved by the U.S. Department of Agriculture (USDA), Food and Nutrition Service (FNS) that is used in the nutrient analysis of the school meals served in the National School Lunch Program (NSLP) and the School Breakfast Program (SBP). 7 CFR 210.18 also requires State agencies to conduct a nutrient analysis of school lunches and breakfasts if non-compliance risk is determined as part of the administrative review to monitor compliance with the dietary specifications for calories, saturated fat, and sodium. When needed to determine compliance, the State agencies are required to use nutrient analysis software evaluated and approved by USDA. The USDA-approved nutrient analysis software must include the CNDB to provide agencies with the nutrient data of foods typically used in school recipes and menus, as well as for food products that are marketed to schools by food manufacturers. The CNDB provides the State agencies with the necessary nutrient information to assess compliance with the dietary specifications in 7 CFR 210.10 for the NSLP and 7 CFR 220.8 for the SBP. The CNDB is regularly maintained and updated to ensure that the information is accurate and current. Form FNS–710 CN Database Qualification Report,

which is an Excel spreadsheet, is used to collect the nutrient data from food manufacturers for commercially processed foods that are sold and marketed for use in school food service.

#### *Need and Use of the Information:*

This is a voluntary information collection that is used to collect nutrient data from food manufacturers for their food products. Private software companies are required to use the CNDB in their nutrient analysis software programs approved by FNS for use in nutrient analyses required in the school meal programs. The State agencies and program operators use this nutrient information in the approved software programs for auditing and nutrient analysis review purposes. The CNDB contains nutrient composition data for: (1) Food items from the USDA National Nutrient Database for Standard Reference (SR); (2) standardized recipes for Child Nutrition Programs developed by FNS; (3) brand name commercially processed foods; and (4) USDA Foods.

#### *Description of Respondents:*

Businesses or other for-profit.

*Number of Respondents:* 32.

*Frequency of Responses:* Reporting: Annually.

*Total Burden Hours:* 2,240.

## **DEPARTMENT OF AGRICULTURE**

### **Submission for OMB Review; Comment Request**

January 21, 2021.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding: Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency’s estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques and other forms of information technology.

Comments regarding this information collection received by February 26, 2021 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

#### **Forest Service**

*Title:* Collaborative Forest Landscape Restoration Program.

*OMB Control Number:* 0596–0245.

*Summary of Collection:* The Collaborative Forest Landscape Restoration Program (CFLRP) is a USDA program started in 2010 to encourage collaborative groups of neighboring landowners, state, local and tribal government representatives, businesses, interest groups, and nonprofit organizations, to work with the Forest Service to find common ground pertaining to geographically extensive forest restoration. The Southwestern Crown Collaborative (SWCC) is one of 24 Collaborative Forest Landscape Restoration (CFLR) projects across the nation currently. In the CFLRP projects, collaborators and other partners work with the Forest Service to implement restoration work and multi-party monitoring of the restoration.

The Forest Landscape Restoration Act (FLRA) of 2009 (16 U.S.C. 7303), which enabled the CFLRP, requires monitoring “to assess the positive or negative ecological, social, and economic effects of projects implementing a selected proposal for not less than 15 years after project implementation commences.” The proposed information collection will help meet the CFLRP projects’ obligation for monitoring the social impacts on residents and stakeholders of activities conducted under the CFLRP. It is critical for managers to understand the social impacts of their decisions to allow for adaptive management and improve future outcomes. The scope of the survey includes residents of communities within and adjacent to CFLRP

landscapes and collaborative participants.

*Need and Use of the Information:* The information collection methods used will be:

1. *Mail and Electronic Monitoring Survey:* Respondents will be given the option of completing an online version of the monitoring instrument; those choosing not to respond online will be given the option of completing a paper version.

2. *Non-Response Checks:* Data will be analyzed for non-response bias and a small subset of respondents will be sampled via phone and asked a small number of monitoring questions (<5 minutes each).

This is an extension renewal without revisions of an information collection that will be conducted by the University of Montana's Bureau of Business and Economic Research (BBER) in conjunction with UM's College of Forestry and Conservation. The purpose is twofold: (1) To meet our obligations under the CFLRP to monitor social impacts, and (2) to provide feedback to Forest Service managers about the activities, including the decision making processes, conducted under the CFLRP. Through an adaptive management process recommended by the authors of the FLRA, this information can be used to improve processes and actions on future restoration projects. The results will be analyzed and published in a final report available for use by federal and state policy makers and by the general public.

*Description of Respondents:*

Individuals or households.

*Estimated Number of Respondents:* 2,330.

*Frequency of Responses:* Reporting: Annually.

*Total Burden Hours:* 320 hours.

## DEPARTMENT OF AGRICULTURE

### Submission for OMB Review; Comment Request

January 22, 2021.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding: Whether the collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by February 26, 2021 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

### Risk Management Agency

*Title:* General Administrative Regulations; Subpart V—Submission of Policies, Provisions of Policies, Rates of Premium, and Non-Reinsured Supplemental Policies.

*OMB Control Number:* 0563-0064.

*Summary of Collections:* The Federal Crop Insurance Corporation (FCIC) amends the procedures for the submission of policies, plans of insurance, or other rates or premium by insurance companies, entities or other persons. Public Law 96-365 provided for nationwide expansion of a comprehensive crop insurance program. The Federal Crop Insurance Act, as amended, expanded the role of the crop insurance to be the principal tool for risk management by producers of farm products and required that the crop insurance program operate on an actuarially sound basis. It provides for independent reviews of insurance products by persons experienced as actuaries and in underwriting. The Act was further amended in 2008 to provide the opportunity for the submission of a concept proposal to the FCIC Board of

Directors (Board) for approval for advance payment of estimated research and development expenses.

*Need and Use of the Information:* An applicant has the option to submit a concept proposal or a submission package for a crop insurance product and have it presented to the Board. The Board will review an applicant's submissions to determine, if the interests of agricultural producers and taxpayers are protected; the submission is actuarially appropriate; appropriate insurance principles are followed; the requirements of the Act are met; and that sound, reasonable and appropriate underwriting principals are followed. If the information is incomplete, the submission will be disapproved.

*Description of Respondents:* Business or other-for-profit.

*Number of Respondents:* 190.

*Frequency of Responses:*

Recordkeeping; Reporting; Other.

*Total Burden Hours:* 44,631.

**Ruth Brown,**

*Departmental Information Clearance Officer.*

## DEPARTMENT OF AGRICULTURE

### Office of Partnerships and Public Engagement

### Advisory Committee on Minority Farmers

**AGENCY:** Office of Partnerships and Public Engagement, USDA.

**ACTION:** Notice of conference call meeting.

**SUMMARY:** Notice is hereby given, pursuant to the provisions of the rules and regulations of the Department of Agriculture and the Federal Advisory Committee Act (FACA), that a public teleconference of the Advisory Committee on Minority Farmers (ACMF) will be held to discuss USDA outreach, technical assistance, and capacity building for and with minority farmers; the implementation of the Socially Disadvantaged and Veteran Farmer and Rancher Grant Program (2501 Program); and methods of maximizing the participation of minority farmers and ranchers in the U.S. Department of Agriculture; and to plan mechanisms for best providing advice to the Secretary on the issues outlined above.

**DATES:** The conference call will be held Wednesday, February 10, 2021 at 1:00 p.m.–4:00 p.m. Central Standard Time (CST).
