

provide mandatory instructions on what happens to records when no longer needed for current Government business. The records schedules authorize agencies to preserve records of continuing value in the National Archives or to destroy, after a specified period, records lacking continuing administrative, legal, research, or other value. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

Agencies may not destroy Federal records without the approval of the Archivist of the United States. The Archivist grants this approval only after thorough consideration of the records' administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government's activities, and whether or not the records have historical or other value. Public review and comment on these records schedules is part of the Archivist's consideration process.

SUPPLEMENTARY INFORMATION:

I. Background

IMLS is the primary source of federal support for the nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant making, research, and policy development. Our vision is a nation where museums and libraries work together to work together to transform the lives of individuals and communities. To learn more, visit www.imls.gov.

II. Current Actions

This Notice proposes the clearance of the 2028–2032 IMLS Grants to States Program Five-Year State Plan Guidelines for State Library Administrative Agencies. The Grants to States program is the largest grant program administered by IMLS, providing financial assistance to develop library services throughout the states, U.S. territories, and the Freely Associated States. Using a population based formula, around \$180 million is distributed among the State Library Administrative Agencies (SLAAs) every year. SLAAs are official agencies charged by law with the extension and development of library services, and they are located in:

- Each of the 50 states of the United States, and the District of Columbia;
- The territories (the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands); and
- The Freely Associated States (the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau).

Each year, approximately 1,500 Grants to States projects support the purposes and priorities outlined in the Library Services and Technology Act. (See 20 U.S.C. 9121–9165) SLAAs may use the funds to support statewide initiatives and services, and they may also distribute the funds through competitive subawards (e.g., subgrants or cooperative agreements) to public, academic, research, school, or special libraries or library consortia (for-profit and Federal libraries are not eligible). Each SLAA must submit a plan that details library services goals for a five-year period. (20 U.S.C. 9134). SLAAs must also conduct a five-year evaluation of library services based on that plan. These plans and evaluations are the foundation for improving practice and informing policy. Each SLAA receives IMLS funding to support the five-year

period through a series of overlapping, two-year grant awards.

The 60-day Notice was published in the **Federal Register** on December 1, 2023 (88 FR 83975) (Document Number 2023–26487). The agency received no comments under this Notice.
