The Commission adopted rules in this information collection to implement the First Report and Order on Reconsideration issued in CC Docket No. 96-98 implementing parts of sections 251 and 252 of the Telecommunications Act of 1996 that affect local competition. Incumbent local exchange carriers (LECs) are required to offer interconnection, unbundled network elements (UNEs), transport and termination, and wholesale rates for certain services to new entrants. Section 251(b)(2) of the Communications Act of 1934, as amended, requires LECs to "provide, to the extent technically feasible, number portability in accordance with requirements prescribed by the Commission." Through the LNP process, consumers have the ability to retain their phone number when switching telecommunications service providers, enabling them to choose a provider that best suits their needs and enhancing competition. In the *Porting Interval Order and Further Notice*, the Commission mandated a one business day porting interval for simple wireline-

to-wireline and intermodal port requests.

The information collected in the standard local service request data fields is necessary to complete simple wireline-to-wireline and intermodal ports within the one business day porting interval mandated by the Commission and will be used to comply with Section 251 of the Telecommunications Act of 1996.

Federal Communications Commission.
