SUPPLEMENTARY INFORMATION:

Title; OMB Number: Impact of ChalleNGe on Participants' Noncognitive Skills; OMB Control Number: 0704-TBD.

Needs and Uses: The information collection requirement is necessary to obtain data on the noncognitive skills of National Guard Youth ChalleNGe program participants at the beginning and the end of their participation in the program. The data will be used by DoD to evaluate whether the ChalleNGe program positively impacts participants' noncognitive skills. The data will also be used to determine whether there are program-specific differences in terms of the impact.

Affected Public: Individuals or households.

Annual Burden Hours: 334 Hours.

Number of Respondents: 1,200.

Responses per Respondent: 1.667.

Average Burden per Response: 10 minutes.

Frequency: On occasion.

Respondents are cadets enrolled in the National Guard Youth ChalleNGe program. The ChalleNGe program, operated jointly by states and the state National Guard units, targets at-risk male and female youth ages 16-18. Today there are 34 programs in 28 states (plus Puerto Rico). Several states have multiple campuses. It is a 22-week residential program that includes instruction on academic subjects in an effort to help cadets attain a GED (General Education Development) credential. The program also focuses on noncognitive skills (those skills which are not academic in nature including motivation and perseverance) which have been shown to be a determining factor in educational and economic success. To date, no research has been done to assess the degree to which the ChalleNGe program improves participants' noncognitive skills. This information collection will provide data on the noncognitive skills of program participants both before and after their completion of the program. The data will be used to evaluate the program's effectiveness in this area.
