SUPPLEMENTARY INFORMATION:

Title: PPQ Form 816, Contract Pilot
and Aircraft Acceptance.

OMB Control Number: 0579-0298.

Type of Request: Extension of
approval of an information collection.

Abstract: The Plant Protection Act
(7 U.S.C. 7701 *et seq.*) authorizes the
Secretary of Agriculture, either
independently or in cooperation with
States, to carry out operations or
measures to detect, eradicate, suppress,
control, prevent, or retard the spread of
plant pests and noxious weeds that are
new to or not widely distributed within
the United States. This authority has
been delegated to the Animal and Plant
Health Inspection Service (APHIS).

As part of this mission, APHIS' Plant
Protection and Quarantine (PPQ)
program responds to introductions of
plant pests with eradication,
suppression, or containment through
various programs in cooperation with
State departments of agriculture and
other government agencies. These
programs may include the aerial
application of treatments to control
plant pests.

APHIS contracts for these services,
and prior to any aerial applications,
requests certain information from the
contractors and/or contract pilots to
ensure that the work will be done
according to contract specifications.
Among other things, APHIS asks to see
the aircraft registration, the aircraft's
airworthiness certificate, the pilot's
license, the pilot's medical certification,
the pilot's proof of flight review, the
pilot's pesticide applicator's license,
and the aircraft logbook. APHIS
transfers information from these
documents to PPQ Form 816, which is
then signed by the APHIS official
collecting the information and the
contractor or contract pilot, indicating
acceptance of the pilot and aircraft for
the job.

We are asking the Office of
Management and Budget (OMB) to
approve our use of these information
collection activities for an additional 3
years.

The purpose of this notice is to solicit
comments from the public (as well as
affected agencies) concerning our
information collection. These comments
will help us:

(1) Evaluate whether the collection of
information is necessary for the proper
performance of the functions of the
Agency, including whether the
information will have practical utility;

(2) Evaluate the accuracy of our
estimate of the burden of the collection
of information, including the validity of
the methodology and assumptions used;

(3) Enhance the quality, utility, and
clarity of the information to be
collected; and

(4) Minimize the burden of the
collection of information on those who
are to respond, through use, as
appropriate, of automated, electronic,
mechanical, and other collection
technologies; *e.g.*, permitting electronic
submission of responses.

Estimate of burden: The public
reporting burden for this collection of
information is estimated to average
0.267 hours per response.

Respondents: Contractors and/or
contract pilots of aircraft.

*Estimated annual number of
respondents:* 15.

*Estimated annual number of
responses per respondent:* 1.

*Estimated annual number of
responses:* 15.

*Estimated total annual burden on
respondents:* 4 hours. (Due to averaging,
the total annual burden hours may not
equal the product of the annual number
of responses multiplied by the reporting
burden per response.)

All responses to this notice will be
summarized and included in the request
for OMB approval. All comments will
also become a matter of public record.

Done in Washington, DC, this 22nd day of
June 2015.

Michael C. Gregoire,

*Acting Administrator, Animal and Plant
Health Inspection Service.*
