

DFARS 252.243–7002, Requests for Equitable Adjustment, implements 10 U.S.C. 3862(a). The clause requires contractors to certify that requests for equitable adjustment exceeding the simplified acquisition threshold are made in good faith and that the supporting data are accurate and complete. The clause also requires contractors to fully disclose all facts relevant to the requests for equitable adjustment. DoD contracting officers and auditors use this information to evaluate contractor requests for equitable adjustments to contracts.

### Defense Acquisition Regulations System

[Docket Number DARS–2024–0021; OMB Control Number 0704–0454]

#### Information Collection Requirement; Defense Federal Acquisition Regulation Supplement (DFARS); U.S. International Atomic Energy Agency Additional Protocol

**AGENCY:** Defense Acquisition Regulations System; Department of Defense (DoD).

**ACTION:** Notice and request for comments regarding a proposed extension of an approved information collection requirement.

**SUMMARY:** In compliance with the Paperwork Reduction Act of 1995, DoD announces the proposed extension of a public information collection requirement and seeks public comment on the provisions thereof. DoD invites comments on: whether the proposed collection of information is necessary for the proper performance of the functions of DoD, including whether the information will have practical utility; the accuracy of DoD's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

The Office of Management and Budget (OMB) has approved this information collection for use under Control Number 0704–0454 through October 31, 2024. DoD proposes that OMB approve an extension of the information collection requirement, to expire three years after the approval date.

**DATES:** DoD will consider all comments received by August 26, 2024.

**ADDRESSES:** You may submit comments, identified by OMB Control Number 0704–0454, using either of the following methods:

*Annual Responses:* 10.

*Average Burden per Response:* 1 hour.

*Annual Burden Hours:* 10.

*Needs and Uses:* This information collection is necessary to provide for protection of information or activities with national security significance. As such, this information collection requires contractors to comply with the notification process in the contract clause at DFARS 252.204–7010, Requirement for Contractor to Notify DoD if the Contractor's Activities are Subject to Reporting Under the U.S.-International Atomic Energy Agency Additional Protocol.

Under the U.S.-International Atomic Energy Agency (IAEA) Additional Protocol, the United States is required to declare a wide range of public and private nuclear-related activities to the IAEA and potentially provide access to IAEA inspectors for verification purposes. The U.S.-IAEA Additional Protocol permits the United States unilaterally to declare exclusions from inspection requirements for activities with direct national security significance.

The contract clause at DFARS 252.204–7010, as prescribed at DFARS 204.470–3, is included in contracts for research and development or major defense acquisition programs involving fissionable materials (e.g., uranium, plutonium, neptunium, thorium, americium); other radiological source materials; or technologies directly related to nuclear power production, including nuclear or radiological waste materials.

The clause requires a contractor to provide written notification to the applicable DoD program manager and a copy of the notification to the contracting officer if the contractor is required to report its activities under the U.S.-IAEA Additional Protocol. Upon such notification, DoD will determine if access may be granted to IAEA inspectors, or if a national security exclusion should be applied.

**SUPPLEMENTARY INFORMATION:**

*Title and OMB Number:* Defense Federal Acquisition Regulation Supplement (DFARS) Subpart 204.17, Service Contracts Inventory and Associated Clause; OMB Control Number 0704–0519.

*Type of Request:* Extension of a currently approved collection.

*Affected Public:* Businesses or other for-profit and not-for-profit institutions.

*Respondent's Obligation:* Required to obtain or retain benefits.

*Frequency:* On Occasion.

*Number of Respondents:* 1,895.

*Responses per Respondent:* 2.91.

*Annual Responses:* 5,515.

*Average Burden per Response:* 2 hours.

*Annual Burden Hours:* 11,030.

*Needs and Uses:* This information collection covers the burden hours related to the requirement at DFARS subpart 204.17, Service Contracts Inventory, and its associated clause, 252.204–7023, Reporting Requirements for Contracted Services. The burden has been updated with current data obtained from the System for Award Management, which is the system used by contractors for submission of reports for this information collection.

DFARS subpart 204.17 and the clause at 252.204–7023 implement 10 U.S.C. 4505 (formerly 10 U.S.C. 2330a), as amended by section 812 of National Defense Authorization Act for Fiscal Year 2017, which requires DoD to establish a data collection system to provide certain management information with regard to each purchase of services by a military department or defense agency that exceeds \$3 million for services in the following service acquisition portfolio groups: logistics management services, equipment-related services, knowledge-based services, and electronics and communications services.

The basic DFARS clause 252.204–7023, Reporting Requirements for Contracted Services, and its alternate I require a contractor to report annually, in the System for Award Management, on the services performed under the contract or order, during the preceding Government fiscal year. Specifically, the contractor is required to report the following: the total dollar amount invoiced for services performed during the preceding fiscal year; and the number of direct labor hours, including subcontractor hours (when applicable), expended on services performed during the previous Government fiscal year.

This information collection will provide DoD with the ability to identify and report annually to Congress, in accordance with 10 U.S.C. 4505, on the inventory of contractor service contract actions. As an adjunct, the information will support DoD's total force management and in making strategic workforce planning and budget decisions pursuant to 10 U.S.C. 129a.
