Needs and Uses: The mission of GEO within the U.S. Census Bureau is to plan, coordinate, and administer all geographic and cartographic activities needed to facilitate Census Bureau statistical programs throughout the United States and its territories. GEO manages programs to continuously update geographic data including addresses, spatial features, boundaries, and geographic entities in the Master Address File/Topologically Integrated Geographic Encoding and Referencing (MAF/TIGER) System. GEO also conducts research into geographic concepts, methods, and standards needed to facilitate Census Bureau data collection and dissemination programs. Geographic Partnership Programs (GPPs) encourages participants, following Census Bureau guidelines, to review, update, and suggest modifications to geographic data to maintain MAF/TIGER and to ensure the accurate reporting of data from censuses and surveys. Because state, local, and

tribal governments have geographic data and current knowledge about where growth and change are occurring in their jurisdictions, their input into the overall development of a continually maintained address list for censuses and surveys makes a vital contribution. The Census Bureau recognizes that state, local, and tribal governments have authoritative geographic data for their jurisdictions. The benefits to local governments in sharing that information as part of the Census Bureau's GPPs are realized with quality data for more accurate results of censuses and surveys. This notice is for a generic clearance that will cover a number of activities required for updating MAF/TIGER with participant-provided address and other geographic information, or obtain address and spatial data for research and evaluation purposes. The information collected in these programs in cooperation with state, local, and tribal governments and other partners is essential to the mission of the Census Bureau and directly contributes to the successful outcome of censuses and surveys conducted by the Census Bureau. The generic clearance allows the Census Bureau to focus its resources on actual operational planning, development of procedures, and implementation of programs to update and improve the geographic data maintained in MAF/TIGER.

Geographic Support System Initiative (GSS-I)

The GSS-I is an integrated program designed to improve geographic data and enhance the quality assessment and measurement for MAF/TIGER. The GSS-I builds on the accomplishments of the last decade's MAF/TIGER Enhancement Program (MTEP), which redesigned MAF/TIGER, improved the positional accuracy of TIGER spatial features, and emphasized quality measurement. The Census Bureau plans on a continual update process for MAF/TIGER throughout the decade to support current surveys, including the American Community Survey (ACS). Major participants are the Census Bureau with state, local, and tribal governments. The Census Bureau will contact state, local, and tribal governments to obtain files containing their geographic data to explore data exchange opportunities, and share best practices on maintaining quality geographic data. Governments can provide a file of their geographic

data or provide data through a web-based application sponsored by the Census Bureau. Governments can choose the format and medium to provide their data directly to the Census Bureau, or may elect to standardize their data using Community TIGER.

Affected Public: State, local, and tribal governments.

Frequency: Annually.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C.

Sections 16, 141, and 193.

This information collection request may be viewed at www.reginfo.gov.

Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: September 8, 2015.

Foreign-Trade Zones Board

[B-59-2015]

Foreign-Trade Zone (FTZ) 29—Louisville, Kentucky; Notification of Proposed Production Activity; Custom Quality Services (Liquor Kitting); Louisville, Kentucky

Custom Quality Services submitted a notification of proposed production activity to the FTZ Board for its facility in Louisville, Kentucky within FTZ 29. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on September 2, 2015.

The Custom Quality Services facility is located within Site 1 of FTZ 29. The facility is used for the warehousing, distribution and kitting of liquor and glassware. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Custom Quality Services from customs duty payments on the foreign status components used in export production. On its domestic sales, Custom Quality Services would be able to choose the duty rates during customs entry procedures that apply to: Whiskey liquor kits; vodka kits; tequila kits; and, wine kits (duty rate ranges from duty-free to 6.3¢/liter) for the foreign status inputs noted below. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

The components and materials sourced from abroad include: Whiskey, bourbon; tequila; wine; whiskey and cola; vodka; liqueur; specialty-tempered glassware; cut or engraved glassware;
