SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Parks and Recreation Comment System (PARCS); OMB Control Number 0710–PARC.

Needs and Uses: The Parks and Recreation Comment System (PARCS) is intended to be a supplemental instrument to the mandatory customer comment cards which can be utilized not only during the optional years but would be available anytime the public would like to submit comments, questions, or concerns about the conditions at the project. PARCS is an online tool unlike the current comment cards and would reduce the use of printed materials. Rather than seeking to gauge overall visitor satisfaction, this tool is intended to collect impromptu feedback from visitors with a limited scope. Each response is expected to relate to one specific issue, essentially supplementing other issue reporting methods such as phone calls and emails. In response to Executive Order 12862, Setting Customer Service Standards, issued on 11 September 1993, the Corps of Engineers initiated development of a comment card program for monitoring visitor satisfaction at Corps of Engineers lakes and projects. E.O. 12862 asks agencies to establish customer service standards and “survey customers to determine . . . their level of satisfaction with existing services.” This enterprise program allows for the uniform collection of customer feedback from visitors to USACE parks and visitor centers. In 2005, the program was expanded to obtain consistent information across water resources projects with public recreation areas requiring mandatory utilization by projects in a 3-year cycle beginning in 2010.
