SUPPLEMENTARY INFORMATION

I. Background

The Federal Mine Safety and Health Act of 1977, as amended, 30 U.S.C. 901, provides for the payment of benefits to a coal miner who is totally disabled due to pneumoconiosis and to certain survivors of the miner. If a beneficiary is incapable of handling their affairs, the person or institution responsible for their care is required to apply to receive the benefit payments on the beneficiary's behalf. The CM-910 is the form completed by the representative payee applicants. The payee applicant completes the form and mails it for evaluation to the district office that has jurisdiction over the beneficiary's claim file. Regulations 20 CFR 725.504-513 require the collection of this information. This information collection is currently approved for use through March 31, 2006.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the

use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The Department of Labor seeks the extension of approval to collect this information in order to carry out its responsibility to evaluate an applicant's ability to be a representative payee. If the Program were not able to screen representative payee applicants the beneficiary's best interest would not be served.
