SUPPLEMENTARY INFORMATION:

Title: Blood and Tissue Collection at Slaughtering and Rendering Establishments.

OMB Number: 0579-0212.

Type of Request: Extension of approval of an information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS), U.S. Department of Agriculture, is authorized to prevent the interstate spread of livestock diseases and for eradicating such diseases from the United States when feasible. In connection with this mission, the Veterinary Services (VS) program, APHIS, conducts animal disease surveillance programs, including diagnostic testing.

The regulations in 9 CFR, subchapter C, part 71, "General Provisions," provide for the collection of blood and tissue samples from livestock (horses, cattle, bison, captive cervids, sheep and goats, swine, and other farmed animals) and poultry at slaughter. Persons moving livestock and poultry interstate for slaughter may only move the animals to slaughtering or rendering establishments that have been listed by the Administrator of APHIS. Federal personnel, in conjunction with establishment personnel, are required to complete a listing agreement and a facility inspection report. At APHIS' discretion, slaughtering or rendering establishment personnel will collect blood and tissue samples to assess the prevalence of disease and to identify sources of disease. The test-at-slaughter program necessitates the use of a specimen submission form, VS Form 10-4.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.3278853 hours per response.

Respondents: Slaughtering and rendering establishment personnel.

Estimated annual number of respondents: 155.

Estimated annual number of responses per respondent: 83.2903.

Estimated annual number of responses: 12,910.

Estimated total annual burden on respondents: 4,233 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 13th day of March 2007.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: U.S. Origin Health Certificate.

OMB Number: 0579-0020.

Type of Request: Extension of approval of an information collection.

Abstract: The export of agricultural commodities, including animals and animal products, is a major business in the United States and contributes to a favorable balance of trade. As part of its mission, the U.S. Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Veterinary Services (VS) maintains

information regarding the import health requirements of other countries for animals and animal products exported from the United States.

Most countries require a certification that our animals are free from specific diseases and show no clinical evidence of disease. This certification must carry the USDA seal and be endorsed by an APHIS, APHIS accredited, or State veterinarian. VS Form 17-140, U.S. Origin Health Certificate, and its continuation form, VS Form 17-140A, are used to meet this requirement. In addition, other information collection activities used for the export of animals and animal products may include: Environmental certification for export facilities; notarized statements; documentation of undue hardship for animals departing from a specific export location; requests regarding approval or withdrawal of approval of export facilities; and recordkeeping for modification of rail stanchions on vessels.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.291882 hours per response.

Respondents: APHIS accredited and State veterinarians; animal owners; and exporters.

Estimated annual number of respondents: 3,067.

Estimated annual number of responses per respondent: 29.36648.

Estimated annual number of responses: 90,067.
