SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Transportation (DOT)/Office of the Secretary (OST) proposes to reissue and update a system of records titled, "Department of Transportation/OST-008, Departmental Advisory Committee Files." The Department also intends to rescind the following legacy notice, "DOT/RSPA 08, Technical Pipeline Safety Committees for Natural Gas and Hazardous Liquids" and consolidate records managed under that Notice with this updated System.

The DOT sponsors advisory committees in accordance with the Federal Advisory Committee Act when DOT or Congress deems it would be beneficial to obtain advice or recommendations on issues or policies under consideration by DOT. The composition of an advisory committee is determined by DOT, or statute, and may include special government employees, Federal employees, or representatives of outside organizations, such as trade

groups or industry. Individuals interested in serving on an advisory committee may apply directly to DOT for consideration, or be recommended by others. The DOT collects information about applicants to assess their qualifications to serve as a committee member, such as employment and educational experiences, references, and other information relevant to the applicant's qualifications, which may include a criminal background check and credit check. This system was originally established in the mid-1970s; however, the Department later determined that files about advisory committee applicants and members were not retrievable by individual name or personal identifier. As a result, the Department retired this notice in 2000. The Department is updating its processes for evaluating applications for membership on advisory committees and for managing records about committee applicants and members. As these records will be retrievable by applicant/member name, the Department is reinstating the notice, with updates to reflect changes in the location of the Department's headquarters and incorporation of all applicable DOT general routine uses.

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, DOT proposes two routine uses for this system, in addition to the general routine uses applicable to this system and described below. The DOT may disclose information to OMB, the Executive Office of the President, or the General Services Administration, when necessary and relevant to DOT's management of the advisory committee, including as needed in DOT's consideration of applicants for membership on an advisory committee, or to comply with any obligations to report information about advisory committees to those entities. This use is compatible with the purpose of the collection, which is to administer advisory committees in accordance with the Federal Advisory Committee Act. In addition, DOT may disclose information from this system to the public to inform the public about the identity and qualifications of individuals selected to serve as members of advisory committees. As one of the purposes of the Federal Advisory Committee Act is to ensure transparency to the public about advisory committee advice and activities, a routine use permitting disclosure of information about advisory committee members is compatible with the purpose of the collection.

We also are consolidating an existing system of records notices, "DOT/RSPA 08, Technical Pipeline Safety Committees for Natural Gas and

Hazardous Liquids" into this system of records and retiring the notice for DOT/RSPA 08. This system was established for the Pipeline and Hazardous Materials Safety Administration to maintain information about applicants and members of the Pipeline Safety Committees for Natural Gas and Hazardous Liquids. As this type of information also be covered by this System, the Department determined that separate notices are not needed and, therefore, is retiring the notice for DOT/RSPA-08.

Finally, we have updated the format and included the relevant and compatible Departmental General Routine Uses to conform to Office of Management and Budget Circular A-108, Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act."

This updated system will be included in DOT's inventory of record systems. This Notice does not apply to records covered by other System of Records Notices.

II. Privacy Act

The Privacy Act (5 U.S.C. 552a) governs the means by which the Federal Government collects, maintains, and uses personally identifiable information (PII) in a System of Records. A "System of Records" is a group of any records under the control of a Federal agency from which information about individuals is retrieved by name or other personal identifier. The Privacy Act requires each agency to publish in the **Federal Register** a System of Records notice (SORN) identifying and describing each System of Records the agency maintains, including the purposes for which the agency uses PII in the system, the routine uses for which the agency discloses such information outside the agency, and how individuals to whom a Privacy Act record pertains can exercise their rights under the Privacy Act (*e.g.*, to determine if the system contains information about them and to contest inaccurate information).

In accordance with 5 U.S.C. 552a(r), DOT has provided a report of this system of records to the Office of Management and Budget and to Congress.
