

in the Sunrise Wind COP, subject to the applicable mitigation measures.

The Project as proposed in the COP would include up to 94 wind turbine generators (WTGs) within 102 potential locations, one offshore converter station, inter-array cables linking the individual WTGs to the offshore substation, one offshore export cable, one onshore converter station, one fiber optic cable co-located with the onshore transmission route, and onshore interconnection cables connecting to the existing electrical grid in New York. The WTGs, offshore substation, and inter-array cables would be located on the OCS approximately 16.4 nautical miles (nm) (18.9 statute miles (mi)) south of Martha's Vineyard, Massachusetts, approximately 26.5 nm (30.5 mi) east of Montauk, New York, and 14.5 nm (16.7 mi) from Block Island, Rhode Island, within the area defined by Renewable Energy Lease OCS-A 0487. The offshore export cables would be buried below the seabed surface on the U.S. OCS and State of New York-owned submerged lands. The onshore export cables, substation, and grid connection would be located in Holbrook, New York.

Alternatives: BOEM considered 16 alternatives when preparing the draft environmental impact statement and carried forward three alternatives for further analysis in the FEIS. These three alternatives include two action alternatives and the no action alternative. Thirteen alternatives were not analyzed in detail because they did not meet the purpose and need for the proposed action or did not meet screening criteria, which are presented in FEIS chapter 2. The screening criteria included consistency with law and regulations; technical and economic feasibility; environmental impacts; and geographic considerations.

Availability of the FEIS: The FEIS, Sunrise Wind COP, and associated information are available on BOEM's website at: <https://www.boem.gov/renewable-energy/state-activities/sunrise-wind-activities>. BOEM has distributed digital copies of the FEIS to all parties listed in FEIS appendix M. If you require a flash drive or paper copy, BOEM will provide one upon request, as long as supplies are available. You may request a flash drive or paper copy of the FEIS by contacting Genevieve Brune at (703) 787-1553 or genevieve.brune@boem.gov.

U.S. Environmental Protection Agency; National Marine Fisheries Service; U.S. Army Corps of Engineers; U.S. Coast Guard; National Park Service; U.S. Fish and Wildlife Service; New York Department of State; Massachusetts Office of Coastal Zone Management; Rhode Island Coastal Resources Management Council; and the Rhode Island Department of Environmental Management.

Authority: 42 U.S.C. 4231 *et seq.* (NEPA, as amended) and 40 CFR 1506.6.

SUPPLEMENTARY INFORMATION:

Background: The 2024 annual U.S. services trade report will provide aggregate data on cross-border trade in services for 2018-2022 and affiliate transactions in services for 2017-2021, and more specific data and information on trade in financial services (including banking services, insurance services, and securities services). The Commission publishes two self-initiated annual reports: a report on trends in services trade (*Recent Trends in U.S. Services Trade*),¹ and a report on trends in merchandise trade, presented as a data compilation (*Shifts in U.S. Merchandise Trade*). The Commission's 2023 *Recent Trends in U.S. Services Trade* report is available online at https://www.usitc.gov/publications/industry_econ_analysis_332/2023/recent_trends_us_services_trade_2023_annual_report.

¹ While previous reports in the *Recent Trends* series used investigation number 332-345, each report will now be issued with a separate investigation number.

The initial notice of institution of this series of investigations was published in the **Federal Register** on September 8, 1993 (58 FR 47287) and provided for a report on merchandise trade. The Commission expanded the scope of the investigation to cover services trade in a separate report, which it announced in a notice published in the **Federal Register** on December 28, 1994 (59 FR 66974). The separate report on services trade has been published annually since 1996, except in 2005. As in past years, the 2024 report will summarize U.S. trade in services in the aggregate and provide analyses of trends and developments in selected services industries during the latest 5-year period for which data are published by the U.S. Department of Commerce, Bureau of Economic Analysis.

Written submissions: Interested persons are invited to file written submissions and other information concerning the matters to be addressed by the Commission in its 2024 report. For the 2024 report, the Commission is particularly interested in receiving information relating to trade in financial services (including banking services, insurance services, and securities services). Submissions should be addressed to the Secretary. To be assured of consideration by the Commission, written submissions related to the Commission's report should be submitted at the earliest practical date and should be received not later than 5:15 p.m., January 29, 2024. All written submissions must conform to the provisions of section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8), as temporarily amended by 85 FR 15798 (March 19, 2020). Under that rule waiver, the Office of the Secretary will accept only electronic filings at this time. Filings must be made through the Commission's Electronic Document Information System (EDIS, <https://edis.usitc.gov>). No in-person paper-based filings or paper copies of any electronic filings will be accepted until further notice. Persons with questions regarding electronic filing should contact the Office of the Secretary, Docket Services Division (202–205–1802), or consult the Commission's *Handbook on Filing Procedures*.

Confidential business information: Any submissions that contain CBI must also conform with the requirements in section 201.6 of the Commission's Rules of Practice and Procedure (19 CFR 201.6). Section 201.6 of the rules requires that the cover of the document and the individual pages be clearly marked as to whether they are the "confidential" or "nonconfidential"

version, and that the CBI is clearly identified by means of brackets. All written submissions, except for CBI, will be made available for inspection by interested persons.

The Commission intends to prepare only a public report in this investigation. The report that the Commission makes available to the public will not contain CBI. However, all information, including CBI, submitted in this investigation may be disclosed to and used: (i) by the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. appendix 3; or (ii) by U.S. Government employees and contract personnel for cybersecurity or other security purposes. The Commission will not otherwise disclose any CBI in a manner that would reveal the operations of the firm supplying the information.

Summaries of written submissions: Persons wishing to have a summary of their position included in the report should include a summary with their written submission on or before January 29, 2024, and should mark the summary as having been provided for that purpose. The summary should be clearly marked as "summary for inclusion in the report" at the top of the page. The summary may not exceed 500 words and should not include any CBI. The summary will be published as provided if it meets these requirements and is germane to the subject matter of the investigation. The Commission will list the name of the organization furnishing the summary and will include a link where the written submission can be found.

By order of the Commission.
