B. Needs and Uses

DoD, GSA, and NASA are combining OMB Control Nos. for the Federal Acquisition Regulation (FAR) by FAR part. This consolidation is expected to improve industry's ability to easily and efficiently identify burdens associated with a given FAR part. The review of the information collections by FAR part allows improved oversight to ensure there is no redundant or unaccounted for burden placed on industry. Lastly, combining information collections in a given FAR part is also expected to reduce the administrative burden associated with processing multiple information collections.

This justification supports the revision of OMB Control No. 9000-0069 and combines it with the previously approved information collections under OMB Control No. 9000-0196, with the new title "Indirect Cost Rate Proposals, Payments to Small Business Subcontractors, and Bankruptcy Notifications". Upon approval of this consolidated information collection, OMB Control No. 9000-0196 will be discontinued. The burden requirements previously approved under the discontinued number will be covered under OMB Control No. 9000-0069.

The proposed rates shall be based on the contractor's actual cost experience for that period. Paragraphs (d)(2)(iii) and (iv) of this clause provide a list of the data required to be submitted. The data is customary business financial information that the contractor can access from its automated business systems.

FAR 52.216-15, Predetermined Indirect Cost Rates. This clause repeats the requirement in the FAR clause at 52.216-7, paragraph (d), for the contractor to submit an adequate final
