

J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations and Executive Order 14096: Revitalizing Our Nation's Commitment to Environmental Justice for All

EPA believes that this type of action does not concern human health or environmental conditions and therefore cannot be evaluated with respect to potentially disproportionate and adverse effects on communities with environmental justice concerns. This action is narrowly tailored to prevent the stranding of inventory of air conditioning and heat pump equipment using variable refrigerant flow technology while not affecting the demand for HFCs.

Although this action does not concern human health or environmental conditions, EPA identified and addressed environmental justice concerns within the 2023 Technology Transitions Rule (88 FR 73098; October 24, 2023).
