

DEPARTMENT OF AGRICULTURE**Submission for OMB Review;
Comment Request; Correction**

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments regarding this information collection received by November 3, 2022 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Agricultural Research Service

Title: Peer Review Related Forms for the Office of Scientific Quality Review.
Action: Notice: Correction.

OMB Control Number: 0518–0028.

Summary of Collection: The Office of Scientific Quality Review (OSQR) published a document in the **Federal Register** on September 21, 2022, Volume 87, Number 182, page 57680, concerning a request for comment on the information collection “Peer Review Related Forms for the Office of Scientific Quality Review” OMB control number 0518–0028. The number of

respondents and burden hours were incorrect. The number of respondents should have been 401 not 230 and the burden hours 2,833 not 2,460.

Number of Respondents: 401.

Frequency of Responses: Reporting: Quarterly; Weekly; Annually.

Total Burden Hours: 2,833.

Ruth Brown,

*Departmental Information Collection
Clearance Officer.*

BILLING CODE 3410–03–P

DEPARTMENT OF AGRICULTURE**Animal and Plant Health Inspection
Service**

[Docket No. APHIS–2020–0106]

**Notice of Decision To Authorize the
Importation of Pummelo From Vietnam
Into the United States**

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public of our decision to authorize the importation into the United States of fresh pummelo fruit from Vietnam. Based on the findings of a pest risk analysis, which we made available to the public for review and comment through a previous notice, we have determined that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh pummelo fruit from Vietnam.

DATES: Imports may be authorized beginning October 4, 2022.

FOR FURTHER INFORMATION CONTACT: Dr. Sam Johnson, Senior Regulatory Policy Specialist, Regulatory Coordination and Compliance, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737–1231; (301) 442–6583.

SUPPLEMENTARY INFORMATION:**Background**

Under the regulations in “Subpart L—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into and spread within the United States.

Section 319.56–4 of the regulations contains a performance-based process

for approving the importation of commodities that, based on the findings of a pest risk analysis (PRA), can be safely imported subject to one or more of the designated phytosanitary measures listed in paragraph (b) of that section. Under that process, APHIS proposes to authorize the importation of a fruit or vegetable into the United States if, based on findings of a PRA, we determine that the measures can mitigate the plant pest risk associated with the importation of that fruit or vegetable. APHIS then publishes a notice in the **Federal Register** announcing the availability of the PRA that evaluates the risks associated with the importation of a particular fruit or vegetable. Following the close of the 60-day comment period, APHIS will issue a subsequent **Federal Register** notice announcing whether or not we will authorize the importation of the fruit or vegetable subject to the phytosanitary measures specified in the notice.

In accordance with that process, we published a notice¹ in the **Federal Register** on December 27, 2021 (86 FR 73237–73238, Docket No. APHIS–2020–0106), in which we announced the availability, for review and comment, of a PRA that evaluated the risks associated with the importation into the United States of pummelo fruit (*Citrus maxima* Merrill) from Vietnam. The PRA consisted of a risk assessment identifying pests of quarantine significance that could follow the pathway of importation of pummelo fruit from Vietnam into the United States and a risk management document (RMD) identifying phytosanitary measures to be applied to that commodity to mitigate the pest risk.

We solicited comments on the notice for 60 days ending on February 25, 2022. We did not receive any comments by that date.

Therefore, in accordance with the regulations in § 319.56–4(c)(3)(iii), we are announcing our decision to authorize the importation into the United States of pummelo from Vietnam subject to the phytosanitary measures identified in the RMD that accompanied the initial notice.

These conditions will be listed in the USDA, APHIS Agricultural Commodity Import Requirements (ACIR) database (<https://acir.aphis.usda.gov/s/>).² In addition to these specific measures, pummelo from Vietnam will be subject to the general requirements listed in

¹ To view the notice and the PRA, go to www.regulations.gov. Enter APHIS–2020–0106 in the Search field.

² On September 30, 2022, the APHIS Fruits and Vegetables Import Requirements (FAVIR) database was replaced by the ACIR database.

§ 319.56–3 that are applicable to the importation of all fruits and vegetables.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the recordkeeping and burden requirements associated with this action are included under the Office of Management and Budget control number 0579–0049.

E-Government Act Compliance

The Animal and Plant Health Inspection Service is committed to compliance with the E-Government Act to promote the use of the internet and other information technologies, to provide increased opportunities for citizen access to Government information and services, and for other purposes. For information pertinent to E-Government Act compliance related to this notice, please contact Mr. Joseph Moxey, APHIS' Paperwork Reduction Act Coordinator, at (301) 851–2483.

Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), the Office of Information and Regulatory Affairs designated this action as not a major rule, as defined by 5 U.S.C. 804(2).

Authority: 7 U.S.C. 1633, 7701–7772, and 7781–7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 29th day of September 2022.

Anthony Shea,

Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410–34–P

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

Agency Information Collection Activities: Special Emergency Approval of SFA Survey II on School Food Supply Chain Disruptions

AGENCY: Food and Nutrition Service (FNS), USDA.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, this notice invites the general public and other public agencies to comment on a proposed emergency information collection.

The Food and Nutrition Service (FNS) of the United States Department of Agriculture (USDA) is requesting emergency approval under the Paperwork Reduction Act to conduct a survey of School Food Authorities to

collect information on the continued impacts of COVID–19-related supply chain disruptions on the Child Nutrition (CN) Programs, as well as emerging challenges related to the transition back to standard school nutrition program operations.

DATES: Written comments must be received on or before November 3, 2022.

ADDRESSES: Comments may be sent to: Sarah Reinhardt, Office of Policy Support, Food and Nutrition Service, U.S. Department of Agriculture, 1320 Braddock Place, Alexandria, VA 22314. Comments may also be submitted via email to Sarah.Reinhardt@usda.gov. Comments will also be accepted through the Federal eRulemaking Portal. Go to <http://www.regulations.gov>, and follow the online instructions for submitting comments electronically. All responses to this notice will be shared with the Office of Management and Budget. All comments will be a matter of public record.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of this information collection should be directed to Sarah Reinhardt at Sarah.Reinhardt@usda.gov or Barbara Murphy at Barbara.Murphy@usda.gov or (703) 305–2532.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) has established regulations for the emergency processing of information collection requests (ICRs) at 5 CFR 1320.13. OMB can authorize Emergency Clearance for an information collection for up to 6 months.

Comments are invited on: (a) Whether the proposed emergency collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions that were used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. The draft survey is included in the appendix to this Notice.

Title: Special Emergency Approval of SFA Survey II on School Food Supply Chain Disruptions.

OMB Number: 0584–NEW.

Expiration Date: Six months after OMB approval.

Type of Request: Emergency information collection request.

Abstract: FNS is responsible for the administration of the Child Nutrition programs—including the National School Lunch Program (NSLP), the School Breakfast Program (SBP), NSLP Seamless Summer Option (SSO), the Summer Food Service Program (SFSP), the Child and Adult Care Food Program (CACFP), and others—at the federal level. To inform current and future policy decisions and effectively oversee these programs, FNS requires information on how these programs are operating. Although FNS oversees these programs, SAs administer them through agreements with SFAs and other local entities that implement the programs at the local level.

Throughout the pandemic, school nutrition professionals have met extraordinary challenges to ensure every child can get the food they need to learn, grow, and thrive. But circumstances in local communities remain unpredictable, and supply chains for food and labor have been stressed and at times disrupted. USDA is committed to working together with state agencies, school food authorities (SFAs), the food industry, and other stakeholders to communicate these challenges and to identify solutions.

This is the second survey issued to SFAs that will assist FNS and its partners to enhance the toolbox for school nutrition professionals working hard to make sure students have reliable access to healthy meals. Whereas the first SFA survey focused on challenges and mitigation strategies related to procuring specific food or non-food items during the 2021–2022 school year, this survey focuses on food costs, labor costs, and vendor issues that continue to disrupt school food service in the 2022–2023 school year, as well as changes in student participation related to the return to standard operations.

The attached survey has a maximum of 31 questions and is estimated to take approximately 20 minutes to complete per respondent. FNS is asking all SFAs that participate in the Child Nutrition Programs to complete this survey, which will be distributed via email with the support of state agencies. SFAs will be asked to complete the survey using an online survey tool and will receive reminders and support emails from state agencies and FNS as needed. As a result, the total proposed time burden is 8,840.79 burden hours.

Affected Public: School Food Authorities and state agencies.

Estimated Number of Respondents: The total estimated number of respondents is 19,106.
