\*The comparable standard for UL 1950 is UL 60950, which has already been added to each applicable NRTL's recognition through a previous notice (67 FR 30975, 5/8/02).

\*\*This standard is no longer applicable because there is no NRTL approval requirement for windows.

\*\*\*The NRTL requested recognition for NFPA 505 as a comparable test standard. However, we determined that this standard is not an "appropriate test standard" because it pertains primarily to operation and maintenance, as opposed to testing, of powered industrial trucks.

In accordance with OSHA policy pertaining to recognition of replacement standards, the Agency only publishes one Federal Register notice to note the changes to the NRTL's scope of recognition. Changes to each NRTL's recognition are limited to those described in this notice. All other terms and conditions of each NRTL's
