[Docket Nos. CP06-54-000, CP06-55-000, CP06-56-000]

Broadwater Energy LLC, Broadwater Pipeline LLC; Notice of Applications

February 17, 2006.

Take notice that on January 30, 2006, Broadwater Energy LLC (Broadwater Energy) filed an application under section 3 of the Natural Gas Act (NGA) and Part 153 of the Commission's Rules and Regulations seeking authorization to site, construct and operate an offshore liquefied natural gas (LNG) receiving terminal and associated facilities (Floating Storage and Regasification Unit) in Long Island Sound, approximately nine miles from the shore of Long Island in New York State waters, as a place of entry for the importation of LNG. Broadwater Energy's proposed terminal is intended to facilitate the importation of LNG from foreign nations into the United States.

Also, take notice that on January 30, 2006, Broadwater Pipeline LLC (Broadwater Pipeline) concurrently filed an application requesting: (i) In Docket No. CP06-55-000 a certificate of public convenience and necessity, pursuant to subpart A of part 157 of the Commission's regulations, authorizing Broadwater Pipeline to construct, own, operate and maintain a 30-inch, 22 mile subsea lateral (and related facilities) as a single-use pipeline; and (ii) in Docket No. CP06-56-000, Broadwater Pipeline requests a blanket certificate under section 7(c) of the NGA and part 157, subpart F of the Commission's regulations to perform routine activities in connection with the future construction, operation and maintenance of the proposed 22-mile pipeline. Broadwater Pipeline seeks authorization to permit its proposed pipeline to be operated as a single-use pipeline. That is, it would be used for just one purpose—to transport natural gas approximately 22 miles from the Floating Storage and Regasification Unit (FSRU), to a subsea interconnection with an existing interstate pipeline.

Broadwater Energy and Broadwater Pipeline respectfully request that the

Commission issue a final order granting them all necessary authorizations for the Broadwater LNG project by March 31, 2007. We note that certain information regarding design standards for the FSRU that was requested by the FERC and U.S. Coast Guard during the Pre-Filing Process was not provided in the application. FERC staff and the U.S. Coast Guard are unable to initiate the design/engineering review of the FSRU or complete the Waterway Suitability Assessment process without this information. Consequently, at this time we are unable to project a schedule for our review or issuance of the draft environmental impact statement (DEIS). Once this information is received, we will issue a notice establishing the schedule for the completion of the DEIS and the issuance of all Federal authorizations.

These applications are on file with the Commission and open to public inspection. Now, as of the filing of Broadwater Energy's and Broadwater Pipeline's applications on January 30, 2006, the Pre-Filing Process for this project has ended. From this time forward, Broadwater Energy's and Broadwater Pipeline's proceeding will be conducted in Docket Nos. CP06-54-000, CP06-55-000, and CP06-56-000, as noted in the caption of this Notice.
