

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Billfish Tagging Report**

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on June 24, 2020 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Billfish Tagging Report.

OMB Control Number: 0648-0009.

Form Number(s): NOAA 88-162.

Type of Request: Regular submission [extension of a current information collection].

Number of Respondents: 1,000.

Average Hours per Response: 5 minutes.

Total Annual Burden Hours: 83.

Needs and Uses: The National Oceanic and Atmospheric Administration's Southwest Fisheries Science Center (SWFSC) operates a conventional mark-recapture billfish tagging program. The SWFSC provides tagging supplies to individuals electing to tag and release the billfish they catch (the program is advertised by a newsletter and by word of mouth). Each Billfish Tagging Report Card is issued with an individual billfish tag and is imprinted with the number matching the accompanying tag. The Billfish Tagging Report Card is the primary mechanism by which these cooperating anglers and commercial fishers return the tag and release information concerning the billfish they have tagged. Individuals cooperating in the program do so on a strictly voluntary basis.

Tagging supplies are provided to volunteer anglers. When anglers catch and release a tagged fish, they submit a brief report on the fish and the location of the tagging. The program is

conducted throughout the year to determine billfish habitat, mortality rates, migration patterns, feeding habits, and growth rates. Fishery biologists investigating the health of billfish resources throughout the Pacific utilize data from this program. Results aid in ongoing research concerning billfish resources and are published annually in the Billfish newsletter.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

Legal Authority: This program is authorized under 16 U.S.C. 760(e), Study of migratory game fish; waters; research; purpose.

SUPPLEMENTARY INFORMATION:

Titles: Rules Relating to the Operations and Activities of Commodity Pool Operators and Commodity Trading Advisors and to Monthly Reporting by Futures Commission Merchants (OMB control number 3038–0005). This is a request for extension and revision of this currently approved information collection.

Abstract: In *Amendments to Registration and Compliance Requirements for Commodity Pool Operators and Commodity Trading Advisors: Prohibiting Exemptions under Regulation 4.13 on Behalf of Persons Subject to Certain Statutory Disqualifications*, 85 FR 40877 (July 8, 2020), the Commission recently revised the notice of exemption required by Commission regulation 4.13(b)(1) of any person who desires to claim the relief from CPO registration.² Separately, in *Agency Information Activities: Notice of Intent to Revise Collection 3038–0005, Adoption of Revised Notice of Exemption Under Regulation 4.13(b)(1)*, 85 FR 47359 (Aug. 5, 2020) (60-Day Notice), the Commission addressed the PRA implications of revising the notice filing required by Commission regulation 4.13(b)(1).³ The various collections of information required by part 4 of the Commission's regulations, including that notice filing, were previously approved by OMB in accordance with the PRA and assigned OMB control number 3038–0005. The Commission offers the following summary of the revision to the notice

and the resulting estimated impact on existing burden hour estimates associated with this information collection.

Revision to the Notice of Exemption

On June 4, 2020, the Commission revised Commission regulation 4.13(b)(1) by adding a representation to the notice already required to be electronically filed with the Commission by persons claiming an exemption from CPO registration thereunder.⁴ With that amendment, the Commission is requiring persons filing a notice of exemption thereunder to also represent that neither the person nor any of its principals has in its background a statutory disqualification listed in section 8a(2) of the Commodity Exchange Act (CEA or Act) that would require disclosure, if the person sought registration. Subject to one limited exception, the amended regulation provides that a person who has, or whose principals have, in their backgrounds a statutory disqualification under CEA section 8a(2) will generally be prohibited from claiming an exemption from CPO registration under Commission regulation 4.13. The Commission intended this amendment to eliminate the inconsistent treatment of exempt CPOs as compared to registered CPOs (and the principals thereof), whereby certain persons could avoid the CEA's basic conduct requirements established for all persons registering as intermediaries with the Commission by claiming an exemption from CPO registration instead. Ultimately, the Commission's stated purpose in adopting this amendment was to improve the customer protection and general investor confidence experienced by exempt pool participants.

The Commission noted in the Statutory Disqualifications Final Rule that the amendment in its proposed form had not implicated an additional or existing collection of information, and thus, the proposed regulation was not considered in the PRA context.⁵ Because the Statutory Disqualifications Final Rule resulted in a representation being added to the existing notice filing in Commission regulation 4.13(b), the Commission determined that this amendment constitutes the modification of an existing information collection; as such, the PRA implications of the

revised notice filing were considered separately in the 60-Day Notice.⁶

By adding this representation to the notice of exemption from CPO registration required by Commission regulation 4.13(b)(1), the Commission recognizes that the existing information collection burden for that notice, currently estimated at 0.1 hours, is expected to increase. The Commission estimates that this amendment would add a total of 0.2 burden hours to the information collection burdens currently estimated for the notice of exemption under Commission regulation 4.13(b)(1), for an aggregate total of 0.3 burden hours. Additionally, the Commission estimates that currently, approximately 8,600 respondents would claim an exemption via the notice filing in Commission regulation 4.13(b)(1).

Comments

In the 60-Day Notice, the Commission provided 60 days for public comment on the extension and revision of the currently approved information collection under OMB control number 3038–0005, including its estimates, restated above, regarding the impact of the revised notice filing on the burdens associated with Commission regulation 4.13(b)(1) and the number of expected respondents under that regulation. The Commission did not receive any comments that addressed any of its estimates or any other aspect of the information collection.

Burden Statement: As explained above, the Commission believes that the addition of a representation to the notice of exemption required by Commission regulation 4.13(b)(1) will increase the information collection burden associated with that notice under OMB control number 3038–0005.

• **OMB control number 3038–0005:**

The Commission estimates that as a result of revising the notice of exemption under Commission regulation 4.13(b)(1), the burden of the collection of information under OMB control number 3038–0005⁷ would be as follows:

⁶ 60-Day Notice, 85 FR at 47360–61.

⁷ OMB control number 3038–0005 currently covers two separate Information Collections ("IC"): (1) Part-4 Commodity Pool Operators and Commodity Trading Advisors IC, and (2) Commodity Pool Operator Annual Report IC. The estimates in this notice reflect changes specifically made by the Statutory Disqualifications Final Rule to the Part-4 Commodity Pool Operators and Commodity Trading Advisors IC, for which the current active information collection estimates of 43,397 respondents and 354,333 burden hours were approved by OMB on March 6, 2020 (ICR Reference No. 201912–3038–001). The aggregate burden for OMB control number 3038–0005 may be further impacted by a separate rulemaking, Amendments to
