SUPPLEMENTARY INFORMATION: As described by the applicant the intended service of the vessel AIR BENDER is: INTENDED COMMERCIAL USE OF VESSEL: "Operate as an uninspected passenger vessel (OUPV), fewer than 6 passengers; sailing, swimming, snorkeling, sport fishing for personal consumption; short duration cruises. Primary reason for waiver request to operate as OUPV is to offset the expense of owning and maintaining the boat (Air Bender). Future plans include traveling the coastal waters on the United States in this vessel."

Geographic Region: "Hawaii, Washington, California, Texas, Mississippi, Florida, South Carolina, North Carolina, Virginia, Maryland, Maine."

The complete application is given in DOT docket MARAD-2014-0066 at <http://www.regulations.gov>. Interested parties may comment on the effect this action may have on U.S. vessel builders or businesses in the U.S. that use U.S.-flag vessels. If MARAD determines, in accordance with 46 U.S.C. 12121 and MARAD's regulations at 46 CFR Part 388, that the issuance of the waiver will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, a waiver will not be granted. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments. Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD's regulations at 46 CFR Part 388.

National Highway Traffic Safety Administration

Reports, Forms and Record Keeping Requirements; Agency Information Collection Activity Under OMB Review

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collections and their expected burden. The **Federal Register** Notice with a 60-day comment period was published January 16, 2014 at Vol. 79, No. 11 p. 2936-2938.

DATES: Comments must be submitted on or before May 28, 2014.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

National Highway Traffic Safety Administration

Title: Record Retention.

OMB Number: 2127-0042.

Type of Request: Renewal of a currently approved information collection.

Abstract: Under 49 U.S.C. 30166(e), NHTSA "reasonably may require a manufacturer of a motor vehicle or motor vehicle equipment to keep records, and a manufacturer, distributor or dealer to make reports, to enable [NHTSA] to decide whether the manufacturer, distributor, or dealer has complied or is complying with this chapter or a regulation prescribed or order issued under this chapter."

To ensure that NHTSA will have access to this type of information, the

agency exercised the authority granted in 49 U.S.C. 30166(e) and promulgated 49 CFR Part 576 Record Retention, initially published on August 20, 1974 and most recently amended on July 10, 2002 (67 FR 45873), requiring manufacturers to retain one copy of all records that contain information concerning malfunctions that may be related to motor vehicle safety for a period of five calendar years after the record is generated or acquired by the manufacturer. Manufacturers are also required to retain for ten years (five years for manufacturers of child seats and tires) the underlying records related to early warning reporting (EWR) information submitted under 49 CFR Part 579.

Affected Public: Businesses or other for profit.

Estimated Total Annual Burden: 40,020 annual hours burden (20 respondents times 1 hour, plus 1,000 respondents times 40 hours).

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street NW., Washington, DC 20503, Attention NHTSA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

A Comment to OMB is most effective if OMB receives it within 30 days of publication.

Issued in Washington, DC, on April 14, 2014.

[U.S. DOT Docket No. NHTSA-2014-0039]

Reports, Forms, and Recordkeeping Requirements

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Request for public comment on proposed collection of information.

SUMMARY: Before a Federal agency can collect certain information from the public, it must receive approval from OMB. Under procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatements of previously approved collections. This document describes a collection of information for which NHTSA intends to seek OMB approval.

DATES: Comments must be received on or before June 20, 2014.

ADDRESSES: You may submit comments [identified by DOT Docket No. NHTSA–2014–0039] by any of the following methods:

- **Federal Rulemaking Portal:** Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- **Mail: Docket Management Facility:** U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building Ground Floor, Room W12–140, Washington, DC 20590–0001.

911 Program, Office of Emergency Medical Services, National Highway Traffic Safety Administration, U.S. Department of Transportation, 1200 New Jersey Avenue SE., NTI–140, Room W44–322, Washington, DC 20590. (202) 366–2705. laurie.flaherty@dot.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must publish a document in the **Federal Register** providing a 60 day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulations (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

- (i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) How to enhance the quality, utility, and clarity of the information to be collected; and
- (iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses. In compliance with these requirements, NHTSA asks public comment on the following proposed collection of information:

Title: National 911 Profile Database.

OMB Control Number: N/A.

FORM Number: This collection of information uses no standard forms, but does utilize a Web-based, data reporting/collection tool (<http://resourcecenter.911.gov/code/9-1-1ProfileDatabase.aspx>).

Abstract: The National 911 Resource Center is funded by the National 911 Program, which is housed within the Office of Emergency Medical Services at NHTSA. The National 911 Resource Center is proposing to continue to collect and aggregate information from State level reporting entities that can be used to measure the progress of 911 authorities across the country in enhancing their existing operations and migrating to—digital, Internet-Protocol-based emergency communication

networks. The data will be maintained in a “National 911 Profile Database.” One of the objectives of the National 911 Program is to develop, collect, and disseminate information concerning practices, procedures, and technology used in the implementation of E–911 services and to support 911 Public Safety Answering Points (PSAPs) and related State and local agencies for 911 deployment and operations. The national 911 Profile Database can be used to follow the progress of 911 authorities in enhancing their existing systems and implementing next-generation networks for more advanced systems. The information can also be used to identify ways in which the National 911 Program can support State and local 911 authorities in the transition process.

Description of the Need for the Information and Proposed Use of the Information—The goal of the data collection process is to support a national 911 profile that will be used to help accurately measure and depict the current status and planned capabilities of 911 systems across the United States. Evaluations, based upon the data collected, will help draw attention to key roadblocks and solutions in the deployment process and to target possible future activities and resources consistent with the goals of the program. The information in aggregated form will be available to State and local stakeholders in the public safety community. The information to be collected includes data useful to evaluating the status of 911 programs across the country, along with their progress of implementing advanced systems and capabilities. The data elements involved will fall within two major categories: baseline and progress benchmarks.

- “Baseline” data elements reflect the current status and nature of 911 operations from State to State. These elements are largely descriptive in nature, are intended to provide a general view of existing 911 services across the country, and are grouped within three categories: administrative, system, and fiscal data.

- “Progress benchmarks” reflect the status of State efforts to implement advanced, next generation 911 systems and capabilities. As titled, these data elements are largely implementation or deployment benchmarks against which progress can be measured. The elements involved are grouped in a logical order of planning, procurement, installation and testing, transition, and operations. Planning through testing elements reflects both State level and sub-State level activity and efforts. Transitional

and operational elements specifically represent the latter.

In order to collect information needed to develop and implement effective strategies that meet the Program's goal of providing leadership, coordination, guidance and direction to the enhancement of the Nation's 911 services, NHTSA proposes to utilize a Web-based, data reporting and collection tool accessible through the Web site: <http://resourcecenter.911.gov/code/9-1-1ProfileDatabase.aspx>.

Description of the Likely Respondents (Including Estimated Number, and Proposed Frequency of Response to the Collection of Information):

Under this proposed effort, the 911 Resource Center would specifically request reporting entities to voluntarily collect and annually report the data described above utilizing the described Web-based data collection tool. Reporting entities are State-level 911 program officials, and the data reported will reflect State-level aggregated data. The total number of respondents is identified at 56, including the 50 States and the six U.S. Territories of Guam, U.S. Minor Outlying Islands, American Samoa, Mariana Islands, U.S. Virgin Islands, and Puerto Rico.

The above reporting entities will be requested to annually update data relating to their State or territory using the described Web-based tool.

Estimate of the Total Annual Reporting and Recordkeeping Burden Resulting From the Collection of Information:

NHTSA estimates that the time required to annually report the data described utilizing the Web-based tool will be three hours (two hours of preparation, one hour of entry to Web site) per reporting entity, for a total of 168 hours for all entities. The

respondents would not incur any reporting costs from the information collection beyond the time it takes to gather the information, prepare it for reporting and then populate the Web-based data collection tool. The respondents also would not incur any recordkeeping burden or recordkeeping costs from the information collection.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for the Department's performance; (b) the accuracy of the estimated burden; (c) ways for the Department to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued in Washington, DC on: April 15, 2014.

Jeffrey P. Michael,

Associate Administrator, Research and Program Development.
